

Chandigarh Int'l. Airport Road, Mohali

many reasons
TO BE HERE.

Date:07.11.2024

To,

The Additional Director

Ministry of Environment, Forest and Climate Change,
Integrated Regional Office,
Bay No. 24-25, Sector-31A,
Dakshin Marg,
Chandigarh-160030

(Mail ids: eccompliance-nro@gov.in and ronz.chd-mef@nic.in)

Subject: Submission of six monthly compliance report for period ending 30.09.2024 for the commercial project namely "CP.67" located at Sector 67, SAS Nagar (Mohali), Punjab by M/s AB Alcobeve Pvt. Ltd.

Respected Sir,

With reference to the EIA Notification & its amendments regarding submission of six monthly compliance report, we are hereby submitting the six monthly compliance report for period ending 30.09.2024 for the above said project through mail for your perusal.

Kindly acknowledge the receipt of the same.

Thanking you

Sincerely,

For M/s AB Alcobeve Pvt. Ltd.

DATA SHEET

1.	Project Type	“Commercial Project”
2.	Name of the Project	“CP.67”
3.	Clearance letter (s)/O.M No. & dates	Environmental Clearance is granted in the name of “Homeland Mall” by SEIAA, Punjab vide Letter No. SEIAA/2016/3149 dated 22.08.2016. Copy of the same is attached along as Annexure 1(a) . Environmental Clearance for expansion is granted by MoEF&CC vide F.No. 21-104/2020-IA.III dated 04.08.2021. Copy of the same is attached along as Annexure 1(b) .
4.	Location	Sector-67,
	a) District (s)	SAS Nagar (Mohali)
	b) State (s)	Punjab
	c) Latitudes/ Longitudes	30°40'45.14"N , 76°43'19.63"E
5.	Address for correspondence	Mr. Umang Jindal (Authorized Signatory) M/s A.B. ALCOBEV (P) Ltd. Site No. 252, Sector-67, Airport Road, Mohali, Punjab.
6.	Salient features	
	a) of the project	As per Environmental Clearance, the total plot area of the project is 16,888.620 sq. m. (4.173 acres) and the built up area of the project is 1,08,196.296 sq.m. It comprises of 100 studio hotel apartments, 940 seats for Cinema, retail, office block and club. The project site falls within M.C. limits of Mohali.
	b) of the environmental management plans	The total water requirement for the project will be 370 KLD, out of which fresh water will be 239 KLD which will be met through tubewell or public supply. The total wastewater generation from the project will be 302 KLD which will be treated in STP of 390 KLD capacity. The total quantity of solid waste generation will be 2,567 kg/day. The solid waste will be segregated into biodegradable and non-biodegradable components and handled as per Solid Waste Management (Rules),

		<p>2016. Biodegradable waste will be composted by using composter. The non-biodegradable waste will be handed over to authorized vendors.</p> <p>Total power requirement during operational phase is 3,966 KW which will be met from PSPCL.</p> <p>Total 4 no. rainwater recharging pits have been proposed.</p> <p>Solar panels have been proposed on the terrace for 40 kw of solar power generation.</p>
7.	Break-up of the project area	
	a) Submergence area: Forest and Non-forest	Not applicable
	b) Others	Not applicable
8.	Break-up of project affected population with enumeration of those losing houses/dwelling units only, agricultural land only both dwelling units and agricultural land and landless labourers/artisans.	Not applicable
	a) SC/ST/Adivasis	Not applicable
	b) Others (Please indicate whether these figures are based on any scientific and systematic survey carried out or only provisional figures. If a survey has been carried out give details and year of survey)	Not applicable
9.	Financial details:	
	a) Project cost as originally planned and subsequent revised estimates and the year of price reference.	<p>Original planned project cost: Rs. 160 Crores (2016)</p> <p>Revised Estimated Project: Rs. 436.61 Crores (2021)</p> <p>Revised Estimated Project Cost: Rs. 560.00 Crores (2023).</p> <p>Revised Estimated Project Cost: Rs. 665.73 Crores</p>
	b) Allocations made for environmental management plans with item wise and year wise break up.	<p>During construction phase, Rs. 83.5 lacs have been allocated towards capital cost and Rs. 5.90 lacs/annum have been allocated towards recurring cost.</p> <p>During operation phase, Rs. 17.9 lacs/annum have been allocated towards recurring charges including environment monitoring cost.</p>
	c) Benefit cost ratio/internal rate	It will be calculated and submitted.

	of return and the year of assessment	
	d) Whether (c) includes the cost of environmental management as shown in b) above.	Yes
	e) Actual expenditure incurred on the project so far.	Total expenditure incurred on the project is Rs. 665.73 Crores till 30.09.2024.
	f) Actual expenditure incurred on environmental management plans so far.	Rs. 1,59,46,587/- has been spent on the EMP till 30.09.2024.
10.	Forest land requirement:	
	a) the status of approval for diversion of forest land for non-forestry use	Not Applicable.
	b) the status of clear felling, if any	Not Applicable.
	c) the status of compensatory afforestation, if any.	Not Applicable.
	d) Comments on the viability & sustainability of compensatory Afforestation programme in the light of actual field experience so far.	Not Applicable.
11.	The status of clear felling in non-forest areas (such as submergence area of reservoir, approach road) if any, with quantitative information	Not applicable
12.	Status of construction:	Construction phase has been completed and project is in operational stage. Photographs of the project site is attached along as Annexure 2 .
	a) Date of commencement (actual and/or planned)	Actual date of commencement- April, 2017
	b) Date of completion (actual and/or planned)	Partial completion- July, 2022 Date of completion- October, 2023. Completion certificate has been obtained. Copy is attached as Annexure-3 .
13.	Reasons for the delay, if the project is yet to start	Not applicable

Compliance Report on conditions imposed in Environmental Clearance for period ending
30.09.2024

A. SPECIFIC CONDITIONS:

SI. No.	Conditions	Reply
1.	Fresh water requirement shall not exceed 239 KLD during operational phase. Abstraction of ground water shall be subject to the permission of Central Ground Water Authority (CGWA).	Fresh water requirement will not be exceeding 239 KLD during the operational phase. Permission from PWRDA for ground water extraction has been obtained which is valid till 24.01.2027. Copy of the same is attached as Annexure-4(b) .
2.	As proposed, waste water shall be treated in onsite STP of 390 KLD capacity. At least 181 KLD of treated wastewater from onsite STP shall be recycled and reused for flushing (156 KLD), Gardening (2 KLD), HVAC and DG cooling (23 KLD) etc.	Sewage Treatment Plant (STP) of 390 KLD capacity has been installed within the project premises for wastewater treatment. The treated wastewater is being used within the premises for flushing, for landscaping purposes, HVAC & DG cooling, etc.
3.	The project proponents would commission a third-party study on the implementation of conditions related to quality and quantity of recycle and reuse of treated water, efficiency of treatment systems, quality of treated water being supplied for flushing (specially the bacterial counts), comparative bacteriological studies from toilet seats using recycled treated waters and fresh waters for flushing, and quality of water being supplied through spray faucets attached to toilet seats.	Noted and complied.
4.	Area for greenery shall be provided as per the details provided in the project document i.e., area under plantation/greenery will be 350 sq. m. As proposed, at least 646 trees shall be maintained during the operation phase of the project. The landscape planning should include plantation of native species. A minimum of 01 tree for every 80 sq.m of land should be planted and maintained. The existing trees will be counted for this purpose. Plantations to be ensured species (cut) to species (planted). The species with	Green belt (more than 646 trees) of adequate width has been provided as per the norms and tree species such as Maulsari Tree (<i>Mimusops elengi</i>), Basant rani/ Rosy Trumpet Tree (<i>Tabubia Rosea</i>), Champa or Temple Tree (<i>Plumeria alba</i>), Sago Palm (<i>Cycas revolute</i>) Date Palm (<i>Phoenix dactylifera</i>), Foxtail Palm (<i>Wodyetia Bifurcata</i>), Madagascar Almond Tree (<i>Terminalia mantaly</i>) Kachnar tree (<i>Bauhinia tree</i>) and <i>Ficus Panda</i> have already been planted along with shrubs within the project premises.

	heavy foliage, broad leaves and wide canopy cover are desirable. Water intensive and/or invasive species should not be used for landscaping.	Project photographs showing the same is attached as Annexure-2 .
5.	The local bye-law provisions on rain water harvesting should be followed. If local bye-law provision is not available, adequate provision for storage and recharge should be followed as per the Ministry of Urban Development Model Building Byelaws, 2016. As proposed, 4 RWH pits shall be provided for rain water harvesting after filtration.	The local bye law provisions on rain water harvesting has been followed. Total 4 numbers of RWH pits have been constructed. Further, regular maintenance of the pits is being done.
6.	The solid waste shall be duly segregated into biodegradable and non-biodegradable components and handled in separate area earmarked for segregation of solid waste, as per SWM Rules, 2016. As committed, biodegradable waste shall be composted by use of Composter. Inert waste shall be dumped to authorized site. The recyclable waste shall be sold to resellers. Construction and demolition waste shall be segregated and managed as per C&D Waste Management Ruled, 2016.	The solid waste is being segregated into biodegradable and non-biodegradable components and handled as per Solid Waste Management (Rules), 2016. Inert waste is being dumped to authorized dumping site. A separate area has been earmarked for segregation of solid waste. Biodegradable waste is being composted by using composter of 1500 kg capacity. The recyclable waste is being sold to resellers.
7.	The PP shall provide electric charging points in the parking areas for e- vehicles as committed.	Electric charging points have been provided for e-vehicles in the parking areas. Photographs showing the same is attached as Annexure-2 .
8.	At least 40 KW of the total power requirement shall be met through solar power as committed.	Energy conservation is being done by implementing steps required for energy conservation. Solar panels of 195 KW capacity have been provided for energy conservation. National Building Code (NBC), 2005 on Energy Conservation is being followed and solar lights has been provided for illumination of common areas.
9.	The Environmental Clearance to the project is primarily under provisions of EIA Notification, 2006. The Project Proponent is under obligation to obtain approvals /clearances under any other Acts/	Noted and agreed.

	Regulations or Statutes as applicable to the project.	
--	---	--

I. STATUTORY COMPLIANCE:

SI. No.	Conditions	Reply
1.	The project proponent shall obtain all necessary clearance/ permission from all relevant agencies including town planning authority before commencement of work. All the construction shall be done in accordance with the local building byelaws.	All required permissions have been obtained as per the requirement. Also, all the construction has been done in accordance with the local building bye laws. In addition, GMADA has allotted land for development of the project. Allotment letter from GMADA is attached as Annexure-18 .
2.	The approval of the Competent Authority shall be obtained for structural safety of buildings due to earthquakes, adequacy of firefighting equipment etc. as per National Building Code including protection measures from lightening etc.	The building has been designed considering the fact that it is earthquake resistant and as per National Building Code (NBC). Structural Safety Certificate and fire NOC is enclosed as Annexure 5 & 8 respectively.
3.	The project proponent shall obtain forest clearance under the provisions of Forest (Conservation) Act, 1980, in case of the diversion of forest land for non-forest purpose involved in the project.	No forest land is involved in the project as land has been allotted by GMADA. Thus, forest clearance is not required.
4.	The project proponent shall obtain clearance from the National Board for Wildlife, if applicable.	The project does not fall in eco-sensitive zone of bird or wildlife sanctuary. Thus, NBWL clearance is not required.
5.	The project proponent shall obtain Consent to Establish / Operate under the provisions of Air (Prevention & Control of Pollution) Act, 1981 and the Water (Prevention & Control of Pollution) Act, 1974 from the concerned State Pollution Control Board/ Committee.	Consent to Establish (CTE) grant certificates copies have already been submitted. Consent to Operate (CTO) and renewal under Air & Water Act for overall project has been also been obtained which is valid till 31.03.2025 and grant certificates are attached as Annexure 6 .
6.	The project proponent shall obtain the necessary permission for drawl of ground water / surface water required for the project from the competent authority.	Permission from PWRDA for ground water extraction has been obtained which is valid till 24.01.2027. Copy of the same is attached as Annexure-4(b) .
7.	A certificate of adequacy of available power from the agency supplying power to the project along with the load allowed for the project should be obtained.	NOC from PSPCL has been obtained vide dated 10.05.2022; copy of NOC is attached as Annexure 7 .

8.	All other statutory clearances such as the approvals for storage of diesel from Chief Controller of Explosives, Fire Department, Civil Aviation Department shall be obtained, as applicable, by project proponents from the respective competent authorities.	Construction work has already been completed and Approval from Airport Authority of India (AAI) has been obtained and copy of the same has already been submitted. Also, NOC from Fire Department has also been obtained; copy of Fire Safety Certificate is attached as Annexure-8 .
9.	The provisions of the Solid Waste Management Rules, 2016, e-Waste (Management) Rules, 2016, and the Plastic Waste Management Rules, 2016, shall be followed.	Solid waste generated is being collected, stored and disposed off as per Solid Waste Management Rules, 2016. All the rules pertaining to Solid Waste Management Rules (2016); E-Waste (Management) Rules and Plastic Waste Management Rules are being followed.
10.	The project proponent shall follow the ECBC/ECBC-R prescribed by Bureau of Energy Efficiency, Ministry of Power strictly.	Agreed. ECBC/ECBC-R prescribed by the Bureau of Energy Efficiency, Ministry of Power is being followed strictly.

II. AIR QUALITY MONITORING AND PRESERVATION:

SI. No.	Conditions	Reply
1.	Notification GSR 94(E) dated 25.01.2018 of MoEF&CC regarding Mandatory Implementation of Dust Mitigation Measures for Construction and Demolition Activities for projects requiring Environmental Clearance shall be complied with.	Dust mitigation measures for construction and demolition activities at the project site was implemented during the construction period.
2.	A management plan shall be drawn up and implemented to contain the current exceedance in ambient air quality at the site.	All necessary steps are being considered to reduce the air pollution and to improve the air quality.
3.	The project proponent shall install system to carryout Ambient Air Quality monitoring for common/criterion parameters relevant to the main pollutants released (e.g. PM10 and PM2.5) covering upwind and downwind directions during the construction period.	Ambient air quality was monitored in regular intervals during construction phase. However, same is being complied in operational phase also. Recent environmental monitoring has been carried out. Test Reports for ambient air quality monitoring are attached along as Annexure-9 .

4.	Diesel power generating sets proposed as source of backup power should be of enclosed type and conform to rules made under the Environment (Protection) Act, 1986. The height of stack of DG sets should be equal to the height needed for the combined capacity of all proposed DG sets. Use of low sulphur diesel. The location of the DG sets may be decided with in consultation with State Pollution Control Board.	Silent type DG sets conforming to provisions of Diesel Generator Set Rules prescribed under the Environment (Protection) Act, 1986 is being used. Test reports for stack emissions monitoring is attached along as Annexure-10 . Also, DG sets are placed at basement and same is verified by PPCB.
5.	Construction site shall be adequately barricaded before the construction begins. Dust, smoke & other air pollution prevention measures shall be provided for the building as well as the site. These measures shall include screens for the building under construction, continuous dust/ wind breaking walls all around the site (at least 3 meter height). Plastic/tarpaulin sheet covers shall be provided for vehicles bringing in sand, cement, murram and other construction materials prone to causing dust pollution at the site as well as taking out debris from the site.	All necessary steps were considered during the construction phase to mitigate the effects of air pollution. Tarpaulin sheets were provided for covering the construction materials which are responsible for causing dust pollution at the site. No uncovered vehicles carrying construction material and waste was permitted during the construction phase.
6.	Sand, murram, loose soil, cement, stored on site shall be covered adequately so as to prevent dust pollution.	Noted and agreed. Sand, loose soil, cement, stored at the site was properly covered to mitigate the effects of the dust pollution.
7.	Wet jet shall be provided for grinding and stone cutting	Agreed.
8.	Unpaved surfaces and loose soil shall be adequately sprinkled with water to suppress dust.	Regular water sprinkling was done on unpaved surfaces and loose soil to mitigate the effects of dust pollution during construction phase.
9.	All construction and demolition debris shall be stored at the site (and not dumped on the roads or open spaces outside) before they are properly disposed. All demolition and construction waste shall be managed as per the provisions of the Construction and Demolition Waste Management Rules 2016.	Construction waste generated during the construction phase was used within the project premises for leveling purpose, etc.
10.	The diesel generator sets to be used during construction phase shall be low sulphur diesel	DG used during construction was of low sulphur diesel type and confirm to EPA.

	type and shall conform to Environmental (Protection) prescribed for air and noise emission standards.	
11.	The gaseous emissions from DG set shall be dispersed through adequate stack height as per CPCB standards. Acoustic enclosure shall be provided to the DG sets to mitigate the noise pollution. Low sulphur diesel shall be used. The location of the DG set and exhaust pipe height shall be as per the provisions of the Central Pollution Control Board (CPCB) norms.	DG set installed are of low Sulphur diesel type and confirm to EPA. Also, acoustic enclosure as well as stack of adequate height as per the norms has been provided with DG sets. Photographs of DG sets are enclosed as Annexure-2 . Test Reports for monitoring of DG stack emissions are attached along as Annexure-10 .
12.	For indoor air quality the ventilation provisions as per National Building Code of India.	National Building Code (NBC) of India has been followed in the project for provisions for ventilation of indoor air quality.

III. WATER QUALITY MONITORING AND PRESERVATION:

SI. No.	Conditions	Reply
1.	The natural drain system should be maintained for ensuring unrestricted flow of water. No construction shall be allowed to obstruct the natural drainage through the site, on wetland and water bodies. Check dams, bio-swales, landscape, and other sustainable urban drainage systems (SUDS) are allowed for maintaining the drainage pattern and to harvest rain water.	Agreed, natural drainage system has not been altered for ensuring unrestricted flow of water. No construction was allowed to obstruct natural drainage at the site.
2.	Buildings shall be designed to follow the natural topography as much as possible. Minimum cutting and filling should be done.	Same was complied.
3.	The quantity of fresh water usage, water recycling and rainwater harvesting shall be measured and recorded to monitor the water balance as projected by the project proponent. The record shall be submitted to the Regional Office, MoEF&CC along with six monthly Monitoring reports.	Agreed. Records of fresh water usage, treated water from STP is being maintained.
4.	A certificate shall be obtained from the local body supplying water, specifying the total annual water availability with the local authority, the quantity of water already	Permission from PWRDA for ground water extraction has been obtained which is valid till 24.01.2027. Copy of the same is attached as Annexure-4(b)

	committed, the quantity of water allotted to the project under consideration and the balance water available. This should be specified separately for ground water and surface water sources, ensuring that there is no impact on other users.	
5.	At least 20% of the open spaces as required by the local building bye- laws shall be pervious. Use of Grass pavers, paver blocks with at least 50% opening, landscape etc. would be considered as pervious surface.	Noted and agreed.
6.	Installation of dual pipe plumbing for supplying fresh water for drinking, cooking and bathing etc. and other for supply of recycled water for flushing, landscape irrigation, car washing, thermal cooling, conditioning etc. shall be done.	Agreed. Dual plumbing system has been provided within the project for reuse of treated wastewater for flushing and green area.
7.	Use of water saving devices/ fixtures (viz. low flow flushing systems; use of low flow faucets tap aerators etc.) for water conservation shall be incorporated in the building plan.	Agreed. Water saving fixtures for conserving water has been provided in the project.
8.	Separation of grey and black water should be done by the use of dual plumbing system. In case of single stack system separate recirculation lines for flushing by giving dual plumbing system be done.	The dual plumbing system has been provided for reuse of treated wastewater for flushing as well as for green area development.
9.	Water demand during construction should be reduced by use of pre-mixed concrete, curing agents and other best practices referred.	Noted and agreed. Water demand has been reduced by the use of pre-mixed concrete and curing agents during construction phase.
10.	Rain water harvesting recharge pits/storage tanks shall be provided for ground water recharging as per the CGWB norms.	Total 4 rain water harvesting recharge pits has been constructed for ground water recharging as per CGWB norms.
11.	A rain water harvesting plan needs to be designed where the recharge bores of minimum one recharge bore per 5,000 square meters of built up area and storage capacity of minimum one day of total fresh water requirement shall be provided. In areas where ground water recharge is not feasible, the rain water should be harvested and stored	Agreed, rain water harvesting plan has been designed as stated and storage capacity of minimum one day of fresh water requirement has been provided. The local bye law provisions on rain water harvesting has been followed. Permission from PWRDA for ground water extraction has been obtained which is valid till

	for reuse. The ground water shall not be withdrawn without approval from the Competent Authority.	24.01.2027. Copy of the same is attached as Annexure-4(b)
12.	All recharge should be limited to shallow aquifer.	Noted and agreed. All the recharge is limited to shallow aquifer.
13.	No ground water shall be used during construction phase of the project.	No ground water was used for construction activities. Only treated wastewater from nearby STP was used for construction activities.
14.	Any ground water dewatering should be properly managed and shall conform to the approvals and the guidelines of the CGWA in the matter. Formal approval shall be taken from the CGWA for any ground water abstraction or dewatering.	Agreed. No ground water dewatering has been done in the project.
15.	The quantity of fresh water usage, water recycling and rainwater harvesting shall be measured and recorded to monitor the water balance as projected by the project proponent. The record shall be submitted to the Regional Office, MoEF&CC along with six monthly Monitoring reports.	The quantity of fresh water usage, water recycling, rainwater harvesting is being monitored. The record of the same is being submitted to the Regional Office, MoEF&CC along with six monthly reports of monitoring.
16.	Sewage shall be treated in the STP with tertiary treatment. The treated effluent from STP shall be recycled/re-used for flushing, AC make up water and gardening. As proposed, no treated water shall be disposed in to municipal drain.	Wastewater generated is being treated in already installed STP and treated wastewater is being recycled for flushing, landscaping purpose, HVAC & DG cooling and only excess is being discharged into GMADA sewer. Copy of permission is attached along as Annexure-12 .
17.	No sewage or untreated effluent water would be discharged through storm water drains.	No sewage or untreated effluent water is being discharged into storm water drains. Wastewater generated is being treated in STP and same is being recycled for flushing, landscaping purpose, HVAC & DG cooling and excess into GMADA sewer. Copy of permission is attached along as Annexure-12
18.	Onsite sewage treatment of capacity of treating 100% waste water to be installed. The installation of the Sewage Treatment Plant (STP) shall be certified by an independent expert and a report in this regard	Sewage Treatment Plant of 390 KLD capacity has been installed prior to operation phase. The wastewater being generated is being treated in STP and same is being recycled for flushing, landscaping purpose, HVAC & DG cooling

	shall be submitted to the Ministry before the project is commissioned for operation. Treated waste water shall be reused on site for landscape, flushing, cooling tower, and other end-uses. Excess treated water shall be discharged as per statutory norms notified by Ministry of Environment, Forest and Climate Change. Natural treatment systems shall be promoted.	and only excess into GMADA sewer. Copy of permission is attached along as Annexure-12 .
19.	Periodical monitoring of water quality of treated sewage shall be conducted. Necessary measures should be made to mitigate the odour problem from STP.	Treated wastewater from STP is being monitored regularly. Test reports of STP outlet is attached as Annexure-11 . Also, adequate measures are being followed to mitigate the odour problem from STP.
20.	Sludge from the onsite sewage treatment, including septic tanks, shall be collected, conveyed and disposed as per the Ministry of Urban Development, Central Public Health and Environmental Engineering Organization (CPHEEO) Manual on Sewerage and Sewage Treatment Systems, 2013.	Sludge generated from STP is being utilized as manure for landscaping within the project only.

IV. NOISE MONITORING AND PREVENTION:

SI. No.	Conditions	Reply
1.	Ambient noise levels shall conform to residential area/commercial area/industrial area/silence zone both during day and night as per Noise Pollution (Control and Regulation) Rules, 2000. Incremental pollution loads on the ambient air and noise quality shall be closely monitored during construction phase. Adequate measures shall be made to reduce ambient air and noise level during construction phase, so as to conform to the stipulated standards by CPCB / SPCB	Ambient noise levels is being monitored at regular intervals. Adequate measures are being made to reduce ambient air & noise level. Recent monitoring has been carried out. Test Reports for ambient noise level monitoring is attached along as Annexure-9 .
2.	Noise level survey shall be carried as per the prescribed guidelines and report in this regard shall be submitted to Regional Officer of the Ministry as a part of six-monthly compliance report.	Ambient noise levels are being monitored in regular intervals. Recent environmental monitoring has been done. Test report is enclosed as Annexure-9 .

3.	Acoustic enclosures for DG sets, noise barriers for ground-run bays, ear plugs for operating personnel shall be implemented as mitigation measures for noise impact due to ground sources.	The noise levels are being maintained by providing acoustic enclosure with DG sets as well as ear plugs for operating personnel.
----	--	--

V. ENERGY CONSERVATION MEASURES:

SI. No.	Conditions	Reply
1.	Compliance with the Energy Conservation Building Code (ECBC) of Bureau of Energy Efficiency shall be ensured. Buildings in the States which have notified their own ECBC, shall comply with the State ECBC	ECBC guidelines are being followed in the project. Details for energy conservation measures have already been submitted.
2.	Outdoor and common area lighting shall be LED.	LED lights have been provided within the project to save energy. Also, light efficient fixtures such as LED lights have been provided.
3.	Concept of passive solar design that minimize energy consumption in buildings by using design elements, such as building orientation, landscaping, efficient building envelope, appropriate fenestration, increased day lighting design and thermal mass etc. shall be incorporated in the building design. Wall, window, and roof U-values shall be as per ECBC specifications.	Best design practices have been followed to assure optimum use of day light, efficient building envelope, etc. has been followed. ECBC guidelines are being followed in the project. Details for energy conservation measures have already been submitted
4.	Energy conservation measures like installation of CFLs/ LED for the lighting the area outside the building should be integral part of the project design and should be in place before project commissioning	Energy conservation building Code and National Building Code, 2005 on Energy Conservation has been adopted. LED lights and solar lights in common areas have been provided as energy conservation measures. Also, light efficient fixtures such as LEDs have been provided.
5.	Solar, wind or other Renewable Energy shall be installed to meet electricity generation equivalent to 1% of the demand load or as per the state level/ local building bye-laws requirement, whichever is higher.	The same is being complied. Solar panels of 195 KW capacity have been provided for energy conservation. LED lights and solar lights in common areas have been provided as energy conservation measures. Photographs of the same is attached as Annexure-2 .
6.	Solar power shall be used for lighting in the apartment to reduce the power load on grid. Separate electric meter shall be installed for solar power. Solar water heating shall be provided to meet 20% of the hot water demand of the commercial and institutional building or	The same is being complied. Solar panels have been provided for energy conservation. Photographs of the same is attached as Annexure-2 .

	as per the requirement of the local building byelaws, whichever is higher. Residential buildings are also recommended to meet its hot water demand from solar water heaters, as far as possible.

VI. WASTE MANAGEMENT:

SI. No.	Conditions	Reply
1.	A certificate from the competent authority handling municipal solid wastes, indicating the existing civic capacities of handling and their adequacy to cater to the M.S.W. generated from project shall be obtained	Solid waste is being collected, stored and disposed off as per Solid Waste Management Rules, 2016. The solid waste generated is being segregated into biodegradable and non-biodegradable components and handled as per Solid Waste Management (Rules), 2016. Biodegradable waste is being composted by using composter. The non-biodegradable waste is being handed over to authorized vendors.
2.	Disposal of muck during construction phase shall not create any adverse effect on the neighboring communities and be disposed taking the necessary precautions for general safety and health aspects of people, only in approved sites with the approval of competent authority	Agreed and complied. The muck generated during construction phase was used for leveling and filling purpose within the project. No muck was disposed outside the premises.
3.	Separate wet and dry bins must be provided in each unit and at the ground level for facilitating segregation of waste. Solid waste shall be segregated into wet garbage and inert materials.	Agreed, separate area as well as wet and dry bins have been provided for segregation of solid waste into wet garbage and inert materials. Photographs showing the same is attached as Annexure-2 .
4.	Organic waste compost/ Vermi-culture pit/ Organic Waste Converter within the premises with a minimum capacity of 0.3 kg /person/day must be installed.	Bio-degradable waste is being managed by composting of waste. Biodegradable waste is being managed by using composter of 1500 kg capacity.
5.	All non-biodegradable waste shall be handed over to authorized recyclers for which a written tie up must be done with the authorized recyclers.	Noted. The same is being complied.
6.	Any hazardous waste generated during construction phase, shall be disposed off as per applicable rules and norms with necessary approvals of the State Pollution Control Board.	No such hazardous waste was generated during construction phase. During operational phase, only hazardous waste in the form of used oil will be generated which will be disposed off as per applicable rules and norms. Agreement has been made with

		authorized vendor. Copy of agreement is attached as Annexure 13(a) . Also, Hazardous waste authorization has been obtained from PPCB. Copy of the same is attached as Annexure-13(b) .
7.	Use of environment friendly materials in bricks, blocks and other construction materials, shall be required for at least 20% of the construction material quantity. These include Fly Ash bricks, hollow bricks, AACs, Fly Ash Lime Gypsum blocks, compressed earth blocks, and other environment friendly materials.	Agreed and complied. Fly Ash based cement was used for the construction purpose.
8.	Fly ash should be used as building material in the construction as per the provision of Fly Ash Notification of September, 1999 and amended as on 27 th August, 2003 and 25 th January, 2016. Ready mixed concrete must be used in building construction.	Fly ash based cement was used for the construction purpose.
9.	Any wastes from construction and demolition activities related thereto shall be managed so as to strictly conform to the Construction and Demolition Waste Management Rules, 2016.	Agreed and complied. Construction waste was managed strictly conforming to the Construction and Demolition Rules, 2016.
10.	Used CFLs and TFLs should be properly collected and disposed off/sent for recycling as per the prevailing guidelines/ rules of the regulatory authority to avoid mercury contamination.	No CFLs and TFLs are being used in the project.

VII. GREEN COVER:

SI. No.	Conditions	Reply
1.	No tree can be felled/transplant unless exigencies demand. Where absolutely necessary, tree felling shall be with prior permission from the concerned regulatory authority. Old trees should be retained based on girth and age regulations as may be prescribed by the Forest Department. Plantations to be ensured species (cut) to species (planted).	No tree cutting has been done in the project premises. Thus, permission is not required
2.	Where the trees need to be cut with prior permission from the concerned local Authority, compensatory plantation in the ratio of 1:10 (i.e. planting of 10 trees for every 1 tree that is cut) shall be done and maintained. Plantations to be ensured species	No tree cutting has been done in the project premises. Green belt (more than 646 trees) of adequate width has been provided as per the norms and tree species such as Maulsari Tree (<i>Mimusops elengi</i>), Basant rani/ Rosy Trumpet Tree (<i>Tabubia Rosea</i>), Champa or Temple

	(cut) to species (planted). Area for green belt development shall be provided as per the details provided in the project document.	Tree (<i>Plumeria alba</i>), Sago Palm (<i>Cycas revolute</i>) Date Palm (<i>Phoenix dactylifera</i>), Foxtail Palm (<i>Wodyetia bifurcata</i>), Madagascar almond tree (<i>Terminalia mantaly</i>) Kachnar tree (<i>Bauhinia</i> tree) and <i>Ficus Panda</i> have already been planted along with shrubs within the project. Project photographs showing the same is attached as Annexure-2 .
3.	Topsoil should be stripped to a depth of 20 cm from the areas proposed for buildings, roads, paved areas, and external services. It should be stockpiled appropriately in designated areas and reapplied during plantation of the proposed vegetation on site.	Agreed and complied. The top soil excavated during the construction activities was used for landscaping purpose within the project premises to the maximum possible extent.

VIII. TRANSPORT

SI. No.	Conditions	Reply
1.	A comprehensive mobility plan, as per MoUD best practices guidelines (URDPFI), shall be prepared to include motorized, non-motorized, public, and private networks. Road should be designed with due consideration for environment, and safety of users. The road system can be designed with these basic criteria. <ul style="list-style-type: none"> a. Hierarchy of roads with proper segregation of vehicular and pedestrian traffic. b. Traffic calming measures. c. Proper design of entry and exit points. d. Parking norms as per local regulation. 	Agreed and complied. Adequate parking space has been provided within the project premises. Wide roads for the entry and exit have been provided. Parking areas are fully internalized. Thus, there is no traffic congestion. Project photographs showing the same is attached as Annexure-2 .
2.	Vehicles hired for bringing construction material to the site should be in good condition and should have a pollution check certificate and should conform to applicable air and noise emission standards be operated only during non-peak hours.	Vehicles used during construction phase was in good condition and having valid PUC certificates.

3.	A detailed traffic management and traffic decongestion plan shall be drawn up to ensure that the current level of service of the roads within a 05 kms radius of the project is maintained and improved upon after the implementation of the project. This plan should be based on cumulative impact of all development and increased habitation being carried out or proposed to be carried out by the project or other agencies in this 05 Kms radius of the site in different scenarios of space and time and the traffic management plan shall be duly validated and certified by the State Urban Development department and the P.W.D./ competent authority for road augmentation and shall also have their consent to the implementation of components of the plan which involve the participation of these departments.	Agreed and complied. Traffic management plan has been prepared and being implemented in accordance with GMADA rules.
----	--	--

IX. HUMAN HEALTH ISSUES:

Sl. No.	Conditions	Reply
1.	All workers working at the construction site and involved in loading, unloading, carriage of construction material and construction debris or working in any area with dust pollution shall be provided with dust mask.	Agreed and complied. Personal protection equipments (PPE) kits & Dust mask were provided to the workers for safety at the time of construction phase.
2.	For indoor air quality the ventilation provisions as per National Building Code of India.	Complied. National building code (NBC) has been followed for construction of the project. So, the ventilation provisions have been provided accordingly.
3.	Emergency preparedness plan based on the Hazard identification and Risk Assessment (HIRA) and Disaster Management Plan shall be implemented.	Noted. All the provisions for risk management and emergency preparedness was followed during construction phase and same is being followed in operational phase also.
4.	Provision shall be made for the housing of construction labour within the site with all	During construction phase, labourers were residing within the project site, all the

	necessary infrastructure and facilities such as fuel for cooking, mobile toilets, mobile STP, safe drinking water, medical health care, creche etc. The housing may be in the form of temporary structures to be removed after the completion of the project.	mandatory facilities which include proper housing and sanitation facilities, etc. were provided.
5.	Occupational health surveillance of the workers shall be done on a regular basis.	Regular health check-up of the workers was done on regular basis during construction phase.
6.	A First Aid Room shall be provided in the project both during construction and operations of the project.	First aid room was provided during construction phase and same is also maintained during operation phase.

X. MISCELLANEOUS:

SI. No.	Conditions	Reply
1.	The project proponent shall prominently advertise it at least in two local newspapers of the District or State, of which one shall be in the vernacular language within seven days indicating that the project has been accorded environment clearance and the details of MoEFCC /SEIAA website where it is displayed.	Advertisement have been published in the two local newspapers in English and Hindi language. Copy of newspaper advertisement has already been submitted.
2.	The copies of the environmental clearance shall be submitted by the project proponents to the Heads of local bodies, Panchayats and Municipal Bodies in addition to the relevant offices of the Government who in turn has to display the same for 30 days from the date of receipt.	The copies of the environmental clearance have already been submitted to the heads of local bodies.
3.	The project proponent shall upload the status of compliance of the stipulated environment clearance conditions, including results of monitored data on their website and update the same on half-yearly basis.	Environmental Clearance letter as well as status of compliance of the stipulated environment clearance conditions, including results of monitored data has been uploaded on the company's website https://www.cp67.co.in/compliance-report/ . Screenshot showing the same is attached as Annexure-14 .
4.	The project proponent shall submit six-monthly reports on the status of the compliance of the	Noted. Six monthly compliance of the stipulated environmental conditions are being uploaded

	stipulated environmental conditions on the website of the ministry of Environment, Forest and Climate Change at environment clearance portal.	regularly at Environmental Clearance portal of Ministry of Environment, Forest and Climate Change. Copy of the screenshot is attached as Annexure- 15 .
5.	The company shall have a well laid down environmental policy duly approved by the Board of Directors. The environmental policy should prescribe for standard operating procedures to have proper checks and balances and to bring into focus any infringements/deviation/violation of the environmental / forest / wildlife norms / conditions. The company shall have defined system of reporting infringements / deviation / violation of the environmental / forest / wildlife norms / conditions and / or shareholder's / stake holders. The copy of the board resolution in this regard shall be submitted to the MoEF&CC as a part of six-monthly report.	Agreed and complied, environment policy is being implemented as approved by the board of directors. Copy of environment policy is attached as Annexure-16 .
6.	A separate Environmental Cell both at the project and company head quarter level, with qualified personnel shall be set up under the control of senior Executive, who will directly report to the head of the organization.	Environment Management Cell has been formed for the monitoring environment related aspects of the project. Mr. Kuldeep, Ms. Pallavi and Mr. Deepak Mehta are name of persons involved in Environment Management Cell.
7.	Action plan for implementing EMP and environmental conditions along with responsibility matrix of the company shall be prepared and shall be duly approved by competent authority. The year wise funds earmarked for environmental protection measures shall be kept in separate account and not to be diverted for any other purpose. Year wise progress of implementation of action plan shall be reported to the Ministry/Regional Office along with the Six Monthly Compliance Report.	Agreed and complied, action plan for implementing EMP and environmental conditions has already been prepared. Rs. 1,59,46,587/- have been spent on the EMP till 30.09.2024. While, amount of Rs. 48,21348/- has been spent on CSR activities till 30.09.2024
8.	The project proponent shall submit the environmental statement for each financial year in Form-V to the concerned State Pollution Control Board as prescribed under the Environment (Protection) Rules, 1986, as amended subsequently and put on the website of the company.	Environmental statement Form-V for financial year 2023-24 has been submitted to Punjab Pollution Control Board (PPCB) prior to 30 th September, 2024. Acknowledgment of the same is attached as Annexure-17 .
9.	The project proponent shall inform the Regional Office as well as the Ministry, the date of financial closure and final approval of the project by the concerned authorities,	The same is being submitted in the datasheet which is submitted along with compliance report.

	commencing the land development work and start of production operation by the project.	
10.	The project authorities must strictly adhere to the stipulations made by the State Pollution Control Board and the State Government.	Stipulations made by the State Pollution Control Board and the State Government are being strictly followed.
11.	The project proponent shall abide by all the commitments and recommendations made in the EIA/EMP report and also that during their presentation to the Expert Appraisal Committee.	The commitments made during the time of EC are being followed and will be followed throughout the operational phase as well.
12.	No further expansion or modifications in the plant shall be carried out without prior approval of the Ministry of Environment, Forest and Climate Change (MoEF&CC).	Agreed and complied.
13.	Concealing factual data or submission of false/fabricated data may result in revocation of this environmental clearance and attract action under the provisions of Environment (Protection) Act, 1986.	Noted.
14.	The Ministry may revoke or suspend the clearance, if implementation of any of the above conditions is not satisfactory.	Noted.
15.	The Ministry reserves the right to stipulate additional conditions if found necessary. The Company in a time bound manner shall implement these conditions.	Noted.
16.	The Regional Office of this Ministry shall monitor compliance of the stipulated conditions. The project authorities should extend full cooperation to the officer(s) of the Regional Office by furnishing the requisite data / information/monitoring reports.	Noted. Full cooperation is being extended to the officer of the Regional Office of Ministry and PPCB by furnishing the requisite data/information/ monitoring reports.
17.	The above conditions shall be enforced, inter-alia under the provisions of the Water (Prevention & Control of Pollution) Act, 1974, the Air (Prevention & Control of Pollution) Act, 1981, the Environment (Protection) Act, 1986, Hazardous and Other Wastes (Management and Transboundary Movement) Rules, 2016, and the Public Liability Insurance Act, 1991 along with their amendments and Rules and any other orders passed by the Hon'ble Supreme Court of India / High Courts and any other Court of Law relating to the subject matter	Noted.
18.	Any appeal against this EC shall lie with the National Green Tribunal, if preferred, within a	No appeal against the Environmental Clearance was made within the 30 days time of grant of EC.

	period of 30 days as prescribed under Section 16 of the National Green Tribunal Act, 2010.

Patiala – 147 001
Telefax:- 0175-2215636

No. SEIAA/2016/3149

REGISTERED

Date: 22.08.2016

To

Sh. Umang Jindal, Director,
M/s. A.B ALCOBEV (P) Ltd.
18, Chanderlok, Pritampura,
New Delhi-110034

Subject: **Environmental clearance under EIA notification dated 14.09.2006 for establishment of a Commercial Mall namely "Homeland Mall" in Sector 67, Distt. SAS Nagar (Mohali), Punjab by M/s. A.B ALCOBEV (P) Ltd. (Proposal no. SIA/PB/NCP/56497/2016)**

This has reference to your application for obtaining Environmental Clearance under EIA notification dated 14.09.2006 for the Commercial Mall namely "Homeland Mall" in Sector 67, Distt. SAS Nagar (Mohali), and subsequent presentation given before the State Level Expert Appraisal Committee (SEAC) for seeking prior environmental clearance for subject cited project as required under the EIA Notification, 2006. The proposal has been appraised as per procedure prescribed under the provisions of EIA Notification dated 14.09.2006 on the basis of the mandatory documents enclosed with the application viz., Form-1, 1-A, conceptual plan and the additional clarifications furnished in response to the observations of the SEAC.

It is inter-alia noted that the proposal involves construction of the Commercial Mall namely "Homeland Mall" in Sector 67, Distt. SAS Nagar (Mohali). The total plot area of the project is 16556 sqm and the total built up area of the Project is 92205.87 sqm. The project comprises of 100 service apartments, cinema having 1500 seats, hotel having 100 rooms, commercial & offices. The total cost of project is Rs. 160 Crores. The project site falls within M.C. limits of Mohali. The GMADA vide letter no. 16349 dated 11.04.2016 allotted land to the project proponent for hotel (100 rooms minimum) & commercial site. The total cost of the project is Rs. 160.0 crore.

The total water requirement for the project will be 402 KLD, which will be met through tubewell or public supply. The total wastewater generation from the project will be 322 KLD, which will be treated in a STP of capacity 350 KLD (considering 10 KLD as wet weather flow) to be installed at project site. In summer season, the

project proponent has proposed to utilize 110 KLD of treated wastewater for flushing purpose, 43 KLD for DG set cooling make up water, 5 KLD will be utilized for horticulture and remaining 164 KLD will be discharged into M.C. sewer. In winter season, 110 KLD of treated wastewater for flushing purpose, 32 KLD for DG set cooling make up water, 01 KLD will be utilized for horticulture and remaining 179 KLD will be discharged into M.C. sewer. In rainy season, 110 KLD of treated wastewater for flushing purpose, 43 KLD for DG set cooling make up water and remaining 169 KLD will be discharged into M.C sewer. GMADA vide letter no. 16349 dated 11.04.2016 has informed to project proponent that project shall be entitled for the sewer & storm water connection in the main sewer & storm network developed by it.

The total quantity of solid waste generation will be 1491 kg/day. Solid wastes generated will be segregated through garbage chute system. The biodegradable organic wastes will be sent to approve dumping site. The project proponent has also proposed to provide Mechanical composter for proper handling of the solid waste. Recyclable waste will be sold to authorized venders. Inert waste will be sent to Municipal dumping site.

The total load of electricity required for commercial project will be 8000 KW which will be taken from the PSPCL. There is a proposal to install silent 4 nos. DG Sets (2 X 1500 KVA & 2 x 240 KVA) as stand-by arrangement. The project proponent has also proposed to provide rain water harvesting pit to recharge the rain water. The e-waste generated will be stored in an isolated room and will be sold to the manufacturers as per the E-Waste (Management) Rules, 2016. Used oil to be generated from the DG sets will be managed, handled and disposed as per the provisions of the Hazardous Wastes (Management, Handling & Transboundary Movement) Rules, 2008.

Director of the project will be responsible for implementation of EMP. During construction phase, Rs. 5.90 Lacs/annum will be incurred towards recurring expenditure of environment monitoring cost. During operation phase, Rs. 83.5 Lacs will be incurred towards capital investment and Rs 17.9 Lacs will be incurred towards recurring charges including environment monitoring cost. The project proponent shall spent Rs. 15.0 lac for the implementation of following CSR activities:

- a) Provide jobs to near by people
- b) Environment awareness camps
- c) Trees for plantation in 10 km area.
- d) Free books, scholarships or economically weaker sections in 10 km area of the project.

e) Widening of road within the vicinity of the project

The case was considered by the SEAC in its 148th meeting held on 19.07.2016 wherein, the Committee awarded 'Silver Grading' to the project proposal and decided that case be forwarded to the SEIAA with the recommendations to grant environmental clearance to the project proponent subject to certain conditions in addition to the proposed measures.

Thereafter, the case was considered by the SEIAA in its 113th meeting held on 10.08.2016, wherein, the Authority noted that the case stands recommended by SEAC and the Committee awarded '**Silver Grading**' to the project proposal. Therefore, the Authority decided to grant environmental clearance to the project proponent for establishment of a Commercial Mall namely "Homeland Mall" in an area of 16556 sqm and having built up area as 92205.87 sqm in Sector 67, Distt. SAS Nagar (Mohali), Punjab, subject to the conditions as proposed by the SEAC in addition to the proposed measures. Accordingly, SEIAA, Punjab hereby accords necessary environmental clearance for the above project under the provisions of EIA Notification dated 14.09.2006 and its subsequent amendments, subject to the following conditions in addition to the proposed measures:

PART-A – Conditions common for all the three phases i.e. Pre-Construction Phase, Construction Phase and Operation Phase & Entire Life:

- (i) Any appeal against this environmental clearance shall lie with the National Green Tribunal, if preferred, within a period of 30 days as prescribed under Section 16 of the National Green Tribunal Act, 2010.
- (ii) A first aid room will be provided in the project both during construction and operation phase of the project.
- (iii) Construction of the STP, solid waste, e-waste, hazardous waste, storage facilities tubewell, DG Sets, Utilities etc, earmarked by the project proponent on the layout plan, should be made in the earmarked area only. In any case the position/location of these utilities should not be changed later-on.
- (iv) The environmental safeguards contained in the application of the promoter / mentioned during the presentation before State Level Environment Impact Assessment Authority/State Expert Appraisal Committee should be implemented in letter and spirit.
- (v) Ambient air & noise levels should conform to prescribed standards both during day and night. Incremental pollution loads on the ambient air quality, noise especially during worst noise generating activities, water quality and soil should be periodically monitored during construction phase as well as operation & entire life phase as per the Ministry of Environment, Forests & Climate Change guidelines and all the mitigation measures should be taken to bring down the levels within the prescribed standards.
- (vi) The grant of environmental clearance does not necessarily implies that forestry and wildlife clearance be granted to the project and that their proposals for

- forestry and wild life clearance will be considered by the respective authorities on their merits and decision taken. The investment made in the project, if any, based on environmental clearance so granted, in anticipation of the clearance from forestry and wildlife angle shall be entirely at the cost and risk of the project proponent and Ministry of Environment and Forests shall not be responsible in this regard in any manner
- (vii) All other statutory clearances such as the approvals for storage of diesel from Chief Controller of Explosives, Fire Department, Civil Aviation Department, Forest (Conservation) Act, 1980 and Wildlife (Protection) Act, 1972 etc. shall be obtained, by project proponents from the competent authorities including Punjab Pollution Control Board and from other statutory bodies as applicable.
 - (viii) The State Environment Impact Assessment Authority, Punjab reserves the right to add additional safeguards/ measures subsequently, if found necessary, and to take action including revoking of the environmental clearance under the provisions of the Environmental (Protection) Act, 1986, to ensure effective implementation of the suggested safeguards/ measures in a time bound and satisfactory manner.
 - (ix) A proper record showing compliance of all the conditions of environmental clearance shall be maintained and made available at site at all the times.
 - (x) The project proponent shall also submit half yearly compliance reports in respect of the stipulated prior environmental clearance terms & conditions including results of monitored data (both in hard & soft copies) to the respective Regional office of MoEF , the Zonal Office of CPCB, the SPCB and SEIAA, Punjab on 1st June and 1st December of each calendar year.
 - (xi) Officials from the Regional Office of Ministry of Environment & Forests, Chandigarh / State Level Environment Impact Assessment Authority / State Level Expert Appraisal Committee / Punjab Pollution Control Board who would be monitoring the implementation of environmental safeguards should be given full cooperation, facilities and documents / data by the project proponents during their inspection. A complete set of all the documents submitted to State Environment Impact Assessment Authority should be forwarded to the APCCF, Regional Office of Ministry of Environment & Forests, Chandigarh.
 - (xii) In the case of any change(s) in the scope of the project, the project would require a fresh appraisal by State Environment Impact Assessment Authority, Punjab.
 - (xiii) Environmental clearance is subject to final order of the Hon'ble Supreme Court of India in the matter of Goa Foundation Vs. Union of India in Writ Petition (Civil) No. 460 of 2004 as may be applicable to this project and decisions of any Competent Court, to the extent applicable.
 - (xiv) The proponent shall upload the status of compliance of the stipulated EC conditions, including results of monitored data on their website and shall update the same periodically. It shall simultaneously be sent to the Regional Office of MoEF&CC, SEIAA, Punjab the respective Zonal Office of CPCB and the SPCB. The criteria pollutant levels for all the parameters of NAAQM standards shall be monitored and displayed at a convenient location near the main gate of the company in the public domain.

- (xv) The inlet and outlet point of natural drain system should be maintained with adequate size of channel for ensuring unrestricted flow of water.
- (xvi) The unpaved area shall be more than or equal to 20% of the recreational open spaces.

PART-B – Specific Conditions:

IV. Pre-Construction Phase

- (i) "Consent to establish" shall be obtained from Punjab Pollution Control Board under Air (Prevention & Control of Pollution) Act, 1981 and Water (Prevention & Control of Pollution) Act, 1974 and a copy of the same shall be submitted to the Ministry of Environment & Forests / State Level Environment Impact Assessment Authority before the start of any construction work at site.
- (ii) All required sanitary and hygienic measures should be in place before starting construction activities and to be maintained throughout the construction phase.
- (iii) The approval of competent authority shall be obtained for structural safety of the buildings due to earthquakes, adequacy of fire fighting equipments etc. as per National Building Code including protection measures from lightning.
- (iv) Provision shall be made for the housing of construction labour within the site with all necessary infrastructure and facilities such as fuel for cooking, mobile toilets, mobile STP, disposal of waste water & solid waste in an environmentally sound manner, safe drinking water, medical health care, crèche etc. The housing may be in the form of temporary structures to be removed after the completion of the project.

V. Construction Phase:

- (i) All the topsoil excavated during construction activities should be stored for use in horticulture / landscape development within the project site.
- (ii) Disposal of muck during construction phase should not create any adverse effect on the neighboring communities and be disposed off after taking the necessary precautions for general safety and health aspects of people with the approval of competent authority. The project proponent will comply with the provisions of Construction & Demolition Waste Rules, 2016. Dust, smoke & debris prevention measures such as wheel washing, screens, barricading and debris chute shall be installed at the site during construction including plastic / tarpaulin sheet covers for trucks bringing in sand & material at the site.
- (iii) Construction spoils, including bituminous material and other hazardous material, must not be allowed to contaminate watercourses. The dump sites for such material must be secured, so that they should not leach into the groundwater.
- (iv) Vehicles hired for bringing construction material to the site and other machinery to be used during construction should be in good condition and should conform to applicable air emission standards.
- (v) The project proponent shall use only treated sewage/wastewater for construction activities and no fresh water for this purpose will be used. A proper record in this regard should be maintained and available at site.
- (vi) Fly ash based construction material should be used in the construction as per the provisions of Fly Ash Notification of September, 1999 and as amended on August, 2003 and notification No. S.O. 2804 (E) dated 03.11.2009.
- (vii) Water demand during construction should be reduced by use of ready mixed

- concrete, curing agents and other best practices.
- (viii) Adequate treatment facility for drinking water shall be provided, if required.
 - (ix) The project proponent shall provide electromagnetic flow meter at the outlet of the water supply, outlet of the STP and any pipeline to be used for re-using the treated wastewater back into the system for flushing and for horticulture purpose/green etc.
 - (x) The project proponent will provide dual plumbing system for reuse of treated wastewater for flushing/ HVAC purposes etc. and colour coding of different pipe lines carrying water/wastewater/ treated wastewater as follows:
 - a. Fresh water : Blue
 - b. Untreated wastewater : Black
 - c. Treated wastewater : Green
(for reuse)
 - d. Treated wastewater : Yellow
(for discharge)
 - e. Storm water : Orange
 - (xi) Fixtures for showers, toilet flushing and drinking should be of low flow either by use of aerators or pressure reducing devices or sensor based control.
 - (xii) Separation of drinking water supply and treated sewage supply should be done by the use of different colors.
 - (xiii)
 - (a)** Adequate steps shall be taken to conserve energy by limiting the use of glass, provision of proper thermal insulation and taking measures as prescribed under the Energy Conservation Building Code and National Building Code, 2005 on Energy conservation.
 - (b)** Solar power plant by utilizing at least 30% of the open roof top area in the premises shall be installed for utilizing maximum solar energy. Also, solar lights shall be provided as proposed for illumination of common areas.
 - (xiv) The diesel generator sets to be used during construction phase should conform to the provisions of Diesel Generator Set Rules prescribed under the Environment (Protection) Act, 1986.
 - (xv) Chute system, separate wet & dry bins at ground level and for common areas for facilitating segregation of waste, collection centre and mechanical composter (with a minimum capacity of 0.3kg/tenement/day) shall be provided for proper collection, handling, storage, segregation, treatment and disposal of solid waste.
 - (xvi) A rainwater harvesting plan shall be designed where the re-charge bores (minimum one per 5000 sqm of built up area) shall be provided. Recharging wells for roof top run-off shall have provision of adequate treatment for removing suspended matter etc. before recharging as per the CGWA guidelines. Run-off from areas other than roof top such as green areas and roads/pavement etc. may also be recharged but only after providing adequate treatment to remove suspended matter, oil & grease etc. and ensuring that rainwater being recharged from these areas is not contaminated with pesticides, insecticides, chemical fertilizer etc.
 - (xvii) Green belt of adequate width as proposed shall be provided so as to achieve attenuation factor conforming to the day & night standards prescribed for residential land use. The open spaces inside the plot should be suitably landscaped and covered with vegetation of indigenous species/variety. A

minimum of one tree for every 80 sqm of land shall be planted and maintained. The existing trees may be counted for this purpose. Preference should be given to planting native species. Where the trees need to be cut, compensatory plantation in the ratio of 1:3 (i.e. planting of three trees for every one tree that is cut) shall be done with the obligation to continue maintenance.

VI. Operation Phase and Entire Life

- i) "Consent to operate" shall be obtained from Punjab Pollution Control Board under Air (Prevention & Control of Pollution) Act, 1981 and Water (Prevention & Control of Pollution) Act, 1974 and a copy of the same shall be submitted to the Ministry of Environment & Forests / State Level Environment Impact Assessment Authority at the time of start of operation.
- ii) The total water requirement for the project will be 402 KLD, which will be met through tubewell or public supply (if available in near future).
- iii) a) The total wastewater generation from the project will be 322 KL/day, which will be treated in a STP of capacity 350 KLD (considering 10 KLD as wet weather flow). As proposed, reuse of treated wastewater and discharge of surplus treated wastewater shall be as below:

Season	Reuse for flushing (KLD)	For horticulture purpose (KLD)	For DG set cooling as make up water (KLD)	Discharge onto sewer (KLD)
Summer	110	5	43	164
Winter	110	1	32	179
Rainy	110	-	43	169

- b) Storage tank of adequate capacity shall be provided for the storage of treated wastewater and all efforts shall be made to supply the same for construction purposes. Only, the surplus treated wastewater shall be discharged onto land for plantation to be developed as per Karnal Technology/ into sewer after maintaining the proper record.
- iv) The project proponent shall ensure safe drinking water supply to the habitants.
- v) The wastewater generated from swimming pool(s) if provided shall not be discharged and the same shall be reused within the premises for purposes such as horticulture, HVAC etc.
- vi) A proper record regarding groundwater abstraction, water consumption, its reuse and disposal shall be maintained on daily basis and shall maintain a record of readings of each such meter on daily basis.
- vii) Rainwater harvesting/recharging systems shall be operated and maintained properly as per CGWA guidelines.
- viii) The facilities provided for collection, segregation, handling, on site storage & processing of solid waste such as chute system, wet & dry bins, collection centre & mechanical composter etc. shall be properly maintained chute system provided for collection of solid waste. The collected solid waste shall be segregated at site. The recyclable solid waste shall be sold out to the authorized vendors for which a written tie-up must be done with the authorized recyclers. Organic waste shall be composted by mechanical composters with a minimum capacity of 0.3kg/tenement/day and the inert solid waste shall be sent to the concerned collection centre of integrated municipal solid waste management

- facility of the area. A proper record in this regard shall be maintained.
- ix) Hazardous waste/E-waste should be disposed off as per Rules applicable and with the necessary approval of the Punjab Pollution Control Board.
 - x) Traffic congestion near the entry and exit points from the roads adjoining the proposed project site must be avoided. Parking should be fully internalized and no public space should be utilized.
 - xi) The project proponent before allowing any occupancy shall obtain completion and occupancy certificate from the Competent Authority and submit a copy of the same to the SEIAA, Punjab.
 - xii) The green belt along the periphery of the plot shall achieve attenuation factor conforming to the day and night noise standards prescribed for residential land use.
 - xiii) Solar power plant and other solar energy related equipments shall be operated and maintained properly.
 - xiv) A report on the energy conservation measures conforming to energy conservation norms should be prepared incorporating details about machinery of air conditioning, lifts, lighting, building materials, R & U Factors etc. and submitted to the respective Regional office of MoEF, the Zonal Office of CPCB and the SPCB/SEIAA in three months time.
 - xv) Environmental Management Cell shall be formed during operation phase which will supervise and monitor the environment related aspects of the project.

PART C – General Conditions :

I. Pre-Construction Phase

- vi) This environmental clearance will be valid for a period of seven years from the date of its issue or till the completion of the project, whichever is earlier.
- vii) The project proponent should advertise in at least two local newspapers widely circulated in the region, one of which shall be in the vernacular language informing that the project has been accorded environmental clearance and copies of clearance letters are available with the Punjab Pollution Control Board. The advertisement should be made within seven days from the day of issue of the clearance letter and a copy of the same should be forwarded to the Regional Office, Ministry of Environment & Forests, Chandigarh and SEIAA, Punjab.
- viii) The project proponent shall obtain permission from the CGWA for abstraction of groundwater & digging of bore well(s) and shall not abstract any groundwater without prior written permission of the CGWA, even if any bore well(s) exist at site.
- ix) The project proponent shall obtain CLU from the competent authority.
- x) A copy of the clearance letter shall be sent by the proponent to concerned Panchayat, Zilla Parishad/ Municipal Corporation, Urban local body and the local NGO, if any, from whom suggestions / representations, if any, were received while processing the proposal. The clearance letter shall also be put on the website of the Company by the proponent.

II. Construction Phase

- i) The project proponent shall adhere to the commitments made in the Environment Management Plan for the construction phase and Corporate Social Responsibility and shall spend minimum amount of Rs. 83.5 Lacs towards capital

investment, Rs.5.90 Lacs/annum towards recurring expenditure and Rs.15 lacs towards CSR activities as proposed in addition to the amount to be spent under the provisions of the Companies Act 1956.

III. Operation Phase and Entire Life

- i) **a)** The entire cost of the environmental management plan will continue to be borne by the project proponent until the responsibility of environmental management plan is transferred to the occupier/residents society under proper MOU under intimation to SEIAA, Punjab. The project proponent shall spend minimum amount of Rs.83.5 lacs towards capital cost and Rs. 17.90 lacs/ annum recurring expenditure as proposed in the EMP.
- ii) **b)** The project proponent shall adhere to the commitments made in the proposal for CSR activities and shall spend a minimum amount of Rs.15 Lacs as proposed.
- iii) The diesel generator sets to be provided shall conform to the provisions of Diesel Generator Set Rules prescribed under the Environment (Protection) Act, 1986. The exhaust pipe of DG set if installed must be minimum 10 m away from the building or in case it is less than 10 m away, the exhaust pipe shall be taken upto 3 m above the building.

Sd/-

Member Secretary (SEIAA)
Dated 22.08.2016

Endst. No 3150-57

A copy of the above is forwarded to the following for information & further necessary action please.

1. The Secretary to Govt. of India, Ministry of Environment and Forest, Paryavaran Bhawan, CGO Complex, Lodhi Road, New Delhi.
2. The Chairman, Central Pollution Control Board, Parivesh Bhavan, CBD-cum-office Complex, East Arjun Nagar, New Delhi.
3. The Chairman, Punjab State Power Corporation Ltd, the Mall, Patiala.
4. The Deputy Commissioner, SAS Nagar.
5. The Chairman, Punjab Pollution Control Board, Vatavaran Bhawan, Nabha Road, Patiala.
6. The Director (Environment), Ministry of Environment and Forest, Northern Regional Office, Bays No.24-25, Sector-31-A, Chandigarh. The detail of the authorized Officer of the project proponent is as under:
 - a) Name of the applicant : Sh. Umang Jindal, Director
 - b) Contact no. : 011-27355218
 - c) E-mail ID : accounts@homelandheights.com
7. The Chief Town Planner, Department of Town & Country Planning, 6th Floor, PUDA Bhawan, Phase-8, Mohali
8. Monitoring Cell, Ministry of Environment and Forest, Paryavaran Bhawan, CGO Complex, Lodhi Road, New Delhi.

Sd/-

Member Secretary (SEIAA)

F. No. 21-104/2020-IA.III

Government of India
 Ministry of Environment, Forest and Climate Change
 (IA.III Section)

Indira Paryavaran Bhawan,
 Jor Bagh Road, New Delhi - 3

Date: August 4th, 2021

To,

Shri Sanjiv Garg,
 M/s A.B Alcobeve (P) Ltd.
 154, 1st Floor, Aggarwal Cyber Plaza-1,
 Plot No. C-4,5,6, SAS Nagar – 160062, Punjab
 Email: abalcobeve20@gmail.com

Subject: Environmental Clearance for Expansion of a Commercial Project namely “CP.67” earlier “Homeland Mall” in Sector 67, Distt. SAS Nagar (Mohali), Punjab by M/s. A.B Alcobeve (P) Ltd. – regarding.

Sir,

This has reference to your Application/Proposal No. IA/PB/MIS/185207/2020; received on 27th November, 2020 through Parivesh Portal for Environmental Clearance (EC) for Expansion of a Commercial Project namely “CP.67” earlier “Homeland Mall” in Sector 67, Distt. SAS Nagar (Mohali), Punjab by M/s. A.B Alcobeve (P) Ltd.

2. As per the provisions of the Environment Impact Assessment (EIA) Notification, 2006; as amended and notified under the Environment (Protection) Act, 1986 (29 of 1986), the above-mentioned project/activity is covered under category ‘B’ of item 8(a) ‘Building and Construction projects’ of the Schedule to the EIA Notification, 2006 and its subsequent amendments, and requires appraisal at State level. However, due to non-existence of SEIAA in Punjab at the time of initial consideration of the proposal, it required appraisal at Central level by sectoral EAC.

3. Accordingly, the abovementioned proposal for Environmental Clearance has been examined by the Expert Appraisal Committee (Infra-2) first in its 58th meeting held on 17th December, 2020, then in its 65th meeting held during 27-28 May, 2021, in its 66th meeting held on 16th June 2021 and thereafter in its 67th meeting held on 30th June, 2021.

4. The details of the project, as per the application and documents submitted by the project proponent, and also as informed during the above-mentioned meetings of EAC (Infra-2) are as under:

- i. The project is located at Site no. 252, Sector-67, Airport Road, SAS

Nagar (Mohali), Punjab. The corner coordinates of the project site are:
 30°40'45.14"N 76°43'19.63"E; 30°40'45.55"N 76°43'20.43"E;
 30°40'37.53"N 76°43'27.13"E; 30°40'36.41"N 76°43'25.31"E and
 30°40'43.48"N 76°43'19.33"E.

- ii. The project is an expansion.
- iii. Earlier, the project has obtained Environmental Clearance from SEIAA Punjab vide letter no. SEIAA/2016/3149 dated 22.08.2016 for plot area of 16,556 sqm and built-up area of 92,205.87 sqm in the name of "Homeland Mall" for 100 service apartments, cinema having 1500 seats, hotel having 100 rooms, commercial & offices. However, plot area of project was incorrectly mentioned in earlier EC application. Further, planning of the project has been changed in such a way that one basement has been reduced and thereby increasing one floor i.e. from 3B+G+11 floors to 2B+G+12 floors including terrace. In addition to it, part of Non-FAR area was not included in the built-up area during the time of earlier EC. Now, the project comprises of 100 services apartments, 940 seats for cinema, retail & multiplex, office block, club, etc. with the name change from "Homeland Mall" to "CP.67". Thus, the built up area will increase from 92,205.87 sqm to 1,08,196.296 sqm. Accordingly, Environmental Clearance for expansion is being applied for.
- iv. The details of the proposed expansion and amendment are given as follows:

S. No.	Description	Earlier EC accorded on 22.08.2016	Proposed	Total (After Expansion/Amendment)
1	Name of the Project	Homeland Mall	CP.67	CP.67 (Name change request)
2	Total Plot Area	16,556 sqm	16,888.620 sqm (4.173 acres)	16,888.620 sqm (4.173 acres) (Correction)
3	Components	100 service apartments, cinema having 1500 seats, hotel having 100 rooms, commercial & offices	-560 seats of Multiplex; club	100 studio hotel rooms, 940 seats for cinema, retail, office block & club
4	Built up Area	92,205.87sqm	15,990.43 sqm	1,08,196.296 sqm
5	Estimated Population	6,857 Persons	4,080 Persons	10,937 Persons
6	Domestic Water Demand	402 KLD	-32 KLD	370 KLD (Fresh water Demand = 239 KLD)
7	Wastewater Generated	322 KLD	-20 KLD	302 KLD

8	STP capacity	Proposed STP of 390 KLD capacity		
9	Solid waste generation	1,491 kg/day	1,076 kg/day	2,567 kg/day
10	Power Load	8,000 KW	-4,034 KW	3,966 KW
11	DG sets	4 No. of DG Sets (2 X1500 KVA each and 2X 240 KVA each)	Change in capacity of DG sets	5 No. of DG sets (4 X 1500 KVA and 1 X 500 KVA)
12	Parking Proposed	914 ECS	140 ECS	1054 ECS
13	Project Cost	₹160.0 Crores	₹276.61 Crores	₹436.61 Crores

- v. During construction phase, total water requirement is expected to be 12 KLD which will be met by treated water. During the construction phase, septic tank will be provided for disposal of waste water. Temporary sanitary toilets will be provided during peak labour force.
- vi. During operational phase, total water requirement of the project is expected to be 420 KLD (370 KLD Domestic water demand + 25 KLD swimming pool make-up water + 23 KLD HVAC & DG Cooling + 2 KLD Horticultural demand) and the same will be met by 239 KLD fresh water from borewells (2 Nos.) and 181 KLD recycled water. 296 KLD of wastewater generated will be treated in an STP of total 390 KLD capacity. 181 KLD of treated wastewater will be recycled and re-used (156 KLD for flushing, 2 KLD for gardening and 23 KLD for HVAC and DG cooling). About 109 KLD will be disposed off for nearby construction or to GMADA sewer.
- vii. About 2,567 kg/day solid wastes will be generated in the project. The biodegradable waste (1,155 kg/day) will be processed in mechanical composters and the non-biodegradable and hazardous waste generated (1,412 kg/day) will be handed over to authorized local vendor.
- viii. The total power requirement during operation phase will be 3,966 KW and will be met from Punjab State Power Corporation Limited (PSPCL). Total 5 DG Sets (4 x 1500 KVA each and 1 x 500 KVA) are proposed for standby use for emergency purposes.
- ix. 4 Rain water recharging pits have been proposed.
- x. Parking facility for 1054 ECS and 19 sqm for loading/unloading area is proposed against the requirement of 1,051 ECS (according to local norms).
- xi. Solar panels have been proposed on the terrace for 40 KW of solar power generation.
- xii. City Bird Sanctuary is located at a distance of approx. 8 km from the project location. However, project is located outside the notified eco-sensitive zone of the sanctuary. NBWL Clearance is not required.
- xiii. Forest Clearance is not required.
- xiv. No Court case is pending against the project.
- xv. 350 sqm of green area and plantation of 375 trees is proposed.
- xvi. Investment/Cost of the project is ₹436.61 Crores.
- xvii. Employment potential: 100 persons during construction phase.
- xviii. Benefits of the project: The project is a Commercial Project that will

provide high end facilities to the nearby population.

5. The EAC noted that the project proponent has obtained certified compliance report from MoEF&CC Integrated Regional Office, Chandigarh vide file No. 16-27/2016-RO (NZ)/ 276-277-278 dated 15.04.2021 based on site visit dated 12.03.2021 and the PP has submitted action taken report dated 08.04.2021.

6. The EAC (Infra 2), based on information and clarifications provided by the project proponent and detailed discussions held on the issues, has recommended granting environment clearance to the project. The aforesaid recommendation of EAC (Infra-2) is subject to certain specific conditions, as stipulated during its 67th meeting held on 30th June, 2021.

7. Based on recommendations of EAC (Infra-2), the Ministry of Environment, Forest and Climate Change hereby accords Environmental Clearance to the project for Expansion of a Commercial Project namely “CP.67” earlier “Homeland Mall” in Sector 67, Distt. SAS Nagar (Mohali), Punjab by M/s. A.B Alcobev (P) Ltd., under the provisions of the EIA Notification, 2006 and amendments/circulars issued thereon, and subject to the following specific and standard conditions:

A. Specific Conditions:

- i. Fresh water requirement shall not exceed 239 KLD during operational phase. Abstraction of ground water shall be subject to the permission of Central Ground Water Authority (CGWA).
- ii. As proposed, waste water shall be treated in onsite STP of 390 KLD capacity. At-least 181 KLD of treated water from onsite STP shall be recycled and reused for flushing (156 KLD), gardening (2 KLD), HVAC and DG cooling (23 KLD) etc.
- iii. The project proponents would commission a third-party study on the implementation of conditions related to quality and quantity of recycle and reuse of treated water, efficiency of treatment systems, quality of treated water being supplied for flushing (specially the bacterial counts), comparative bacteriological studies from toilet seats using recycled treated waters and fresh waters for flushing, and quality of water being supplied through spray faucets attached to toilet seats.
- iv. Area for greenery shall be provided as per the details provided in the project document i.e., area under plantation/greenery will be 350 sqm. The landscape planning should include plantation of native species. As proposed, at least 375 trees to be maintained within the premises during the operation phase of the project. A minimum of 01 tree for every 80 sqm of land should be planted and maintained. The existing trees will be counted for this purpose. The species with heavy foliage, broad leaves and wide canopy cover are desirable. Water intensive and/or invasive species should not be used for landscaping.
- v. The local bye-law provisions on rain water harvesting should be followed. If local bye-law provision is not available, adequate provision for storage and recharge should be followed as per the Ministry of Urban

- Development Model Building Byelaws, 2016. As proposed, 4 Nos RWH pits shall be provided for harvesting after filtration.
- vi. The solid waste shall be duly segregated into biodegradable and non-biodegradable components and handled in separate area earmarked for segregation of solid waste. As committed, biodegradable waste shall be composted by use of Composter. Inert waste shall be dumped to authorized site. The recyclable waste shall be sold to resellers. Construction & Demolition waste shall be segregated and managed as per C&D Waste Management Rules, 2016.
 - vii. The PP shall also provide electric charging points in the parking areas for e-vehicles as committed.
 - viii. At-least 40 KW of the total power requirement shall be met through solar power as committed.
 - ix. The Environmental Clearance to the project is primarily under provisions of EIA Notification, 2006. The Project Proponent is under obligation to obtain approvals/clearances under any other Acts/Regulations or Statutes as applicable to the project.

B. Standard Conditions:

I. Statutory compliance:

- i. The project proponent shall obtain all necessary clearance/ permission from all relevant agencies including town planning authority before commencement of work. All the construction shall be done in accordance with the local building byelaws.
- ii. The approval of the Competent Authority shall be obtained for structural safety of buildings due to earthquakes, adequacy of fire-fighting equipment etc as per National Building Code including protection measures from lightening etc.
- iii. The project proponent shall obtain forest clearance under the provisions of Forest (Conservation) Act, 1980, in case of the diversion of forest land for non-forest purpose involved in the project.
- iv. The project proponent shall obtain clearance from the National Board for Wildlife, if applicable.
- v. The project proponent shall obtain Consent to Establish / Operate under the provisions of Air (Prevention & Control of Pollution) Act, 1981 and the Water (Prevention & Control of Pollution) Act, 1974 from the concerned State Pollution Control Board/ Committee.
- vi. The project proponent shall obtain the necessary permission for drawl of ground water / surface water required for the project from the competent authority.
- vii. A certificate of adequacy of available power from the agency supplying power to the project along with the load allowed for the project should be obtained.
- viii. All other statutory clearances such as the approvals for storage of diesel from Chief Controller of Explosives, Fire Department, Civil Aviation Department shall be obtained, as applicable, by project proponents from the respective competent authorities.

- ix. The provisions of the Solid Waste Management Rules, 2016, e-Waste (Management) Rules, 2016, and the Plastics Waste Management Rules, 2016, shall be followed.
- x. The project proponent shall follow the ECBC/ECBC-R prescribed by Bureau of Energy Efficiency, Ministry of Power strictly.

II. Air quality monitoring and preservation:

- i. Notification GSR 94(E) dated 25.01.2018 of MoEF&CC regarding Mandatory Implementation of Dust Mitigation Measures for Construction and Demolition Activities for projects requiring Environmental Clearance shall be complied with.
- ii. A management plan shall be drawn up and implemented to contain the current exceedance in ambient air quality at the site.
- iii. The project proponent shall install system to carryout Ambient Air Quality monitoring for common/criterion parameters relevant to the main pollutants released (e.g. PM₁₀ and PM_{2.5}) covering upwind and downwind directions during the construction period.
- iv. Diesel power generating sets proposed as source of backup power should be of enclosed type and conform to rules made under the Environment (Protection) Act, 1986. The height of stack of DG sets should be equal to the height needed for the combined capacity of all proposed DG sets. Use of low sulphur diesel. The location of the DG sets may be decided with in consultation with State Pollution Control Board.
- v. Construction site shall be adequately barricaded before the construction begins. Dust, smoke & other air pollution prevention measures shall be provided for the building as well as the site. These measures shall include screens for the building under construction, continuous dust/ wind breaking walls all around the site (at least 3 meter height). Plastic/tarpaulin sheet covers shall be provided for vehicles bringing in sand, cement, murram and other construction materials prone to causing dust pollution at the site as well as taking out debris from the site.
- vi. Sand, murram, loose soil, cement, stored on site shall be covered adequately so as to prevent dust pollution.
- vii. Wet jet shall be provided for grinding and stone cutting.
- viii. Unpaved surfaces and loose soil shall be adequately sprinkled with water to suppress dust.
- ix. All construction and demolition debris shall be stored at the site (and not dumped on the roads or open spaces outside) before they are properly disposed. All demolition and construction waste shall be managed as per the provisions of the Construction and Demolition Waste Management Rules 2016.
- x. The diesel generator sets to be used during construction phase shall be low sulphur diesel type and shall conform to Environmental (Protection) prescribed for air and noise emission standards.
- xi. The gaseous emissions from DG set shall be dispersed through adequate stack height as per CPCB standards. Acoustic enclosure shall be provided to the DG sets to mitigate the noise pollution. Low sulphur diesel shall be used. The location of the DG set and exhaust pipe height

shall be as per the provisions of the Central Pollution Control Board (CPCB) norms.

- xii. For indoor air quality the ventilation provisions as per National Building Code of India.

III. Water quality monitoring and preservation:

- i. The natural drain system should be maintained for ensuring unrestricted flow of water. No construction shall be allowed to obstruct the natural drainage through the site, on wetland and water bodies. Check dams, bio-swales, landscape, and other sustainable urban drainage systems (SUDS) are allowed for maintaining the drainage pattern and to harvest rain water.
- ii. Buildings shall be designed to follow the natural topography as much as possible. Minimum cutting and filling should be done.
- iii. The quantity of fresh water usage, water recycling and rainwater harvesting shall be measured and recorded to monitor the water balance as projected by the project proponent. The record shall be submitted to the Regional Office, MoEF&CC along with six monthly Monitoring reports.
- iv. A certificate shall be obtained from the local body supplying water, specifying the total annual water availability with the local authority, the quantity of water already committed, the quantity of water allotted to the project under consideration and the balance water available. This should be specified separately for ground water and surface water sources, ensuring that there is no impact on other users.
- v. At least 20% of the open spaces as required by the local building bye-laws shall be pervious. Use of Grass pavers, paver blocks with at least 50% opening, landscape etc. would be considered as pervious surface.
- vi. Installation of dual pipe plumbing for supplying fresh water for drinking, cooking and bathing etc and other for supply of recycled water for flushing, landscape irrigation, car washing, thermal cooling, conditioning etc. shall be done.
- vii. Use of water saving devices/ fixtures (viz. low flow flushing systems; use of low flow faucets tap aerators etc) for water conservation shall be incorporated in the building plan.
- viii. Separation of grey and black water should be done by the use of dual plumbing system. In case of single stack system separate recirculation lines for flushing by giving dual plumbing system be done.
- ix. Water demand during construction should be reduced by use of pre-mixed concrete, curing agents and other best practices referred.
- x. Rain water harvesting recharge pits/storage tanks shall be provided for ground water recharging as per the CGWB norms.
- xi. A rain water harvesting plan needs to be designed where the recharge bores of minimum one recharge bore per 5,000 square meters of built up area and storage capacity of minimum one day of total fresh water requirement shall be provided. In areas where ground water recharge is not feasible, the rain water should be harvested and stored for reuse. The ground water shall not be withdrawn without approval from the Competent Authority.
- xii. All recharge should be limited to shallow aquifer.

- xiii. No ground water shall be used during construction phase of the project.
- xiv. Any ground water dewatering should be properly managed and shall conform to the approvals and the guidelines of the CGWA in the matter. Formal approval shall be taken from the CGWA for any ground water abstraction or dewatering.
- xv. The quantity of fresh water usage, water recycling and rainwater harvesting shall be measured and recorded to monitor the water balance as projected by the project proponent. The record shall be submitted to the Regional Office, MoEF&CC along with six monthly Monitoring reports.
- xvi. Sewage shall be treated in the STP with tertiary treatment.
- xvii. No sewage or untreated effluent water would be discharged through storm water drains.
- xviii. Onsite sewage treatment of capacity of treating 100% waste water to be installed. The installation of the Sewage Treatment Plant (STP) shall be certified by an independent expert and a report in this regard shall be submitted to the Ministry before the project is commissioned for operation. Treated waste water shall be reused on site for landscape, flushing, cooling tower, and other end-uses. Excess treated water shall be discharged as per statutory norms notified by Ministry of Environment, Forest and Climate Change. Natural treatment systems shall be promoted.
- xix. Periodical monitoring of water quality of treated sewage shall be conducted. Necessary measures should be made to mitigate the odour problem from STP.
- xx. Sludge from the onsite sewage treatment, including septic tanks, shall be collected, conveyed and disposed as per the Ministry of Urban Development, Central Public Health and Environmental Engineering Organization (CPHEEO) Manual on Sewerage and Sewage Treatment Systems, 2013.

IV. Noise monitoring and prevention:

- i. Ambient noise levels shall conform to residential area/commercial area/industrial area/silence zone both during day and night as per Noise Pollution (Control and Regulation) Rules, 2000. Incremental pollution loads on the ambient air and noise quality shall be closely monitored during construction phase. Adequate measures shall be made to reduce ambient air and noise level during construction phase, so as to conform to the stipulated standards by CPCB / SPCB.
- ii. Noise level survey shall be carried as per the prescribed guidelines and report in this regard shall be submitted to Regional Officer of the Ministry as a part of six-monthly compliance report.
- iii. Acoustic enclosures for DG sets, noise barriers for ground-run bays, ear plugs for operating personnel shall be implemented as mitigation measures for noise impact due to ground sources.

V. Energy Conservation measures:

- i. Compliance with the Energy Conservation Building Code (ECBC) of Bureau of Energy Efficiency shall be ensured. Buildings in the States which have notified their own ECBC, shall comply with the State ECBC.
- ii. Outdoor and common area lighting shall be LED.

- iii. Concept of passive solar design that minimize energy consumption in buildings by using design elements, such as building orientation, landscaping, efficient building envelope, appropriate fenestration, increased day lighting design and thermal mass etc. shall be incorporated in the building design. Wall, window, and roof u-values shall be as per ECBC specifications.
- iv. Energy conservation measures like installation of CFLs/ LED for the lighting the area outside the building should be integral part of the project design and should be in place before project commissioning.
- v. Solar, wind or other Renewable Energy shall be installed to meet electricity generation equivalent to 1% of the demand load or as per the state level/ local building bye-laws requirement, whichever is higher.
- vi. Solar power shall be used for lighting in the apartment to reduce the power load on grid. Separate electric meter shall be installed for solar power. Solar water heating shall be provided to meet 20% of the hot water demand of the commercial and institutional building or as per the requirement of the local building bye-laws, whichever is higher. Residential buildings are also recommended to meet its hot water demand from solar water heaters, as far as possible.

VI. Waste Management:

- i. A certificate from the competent authority handling municipal solid wastes, indicating the existing civic capacities of handling and their adequacy to cater to the M.S.W. generated from project shall be obtained.
- ii. Disposal of muck during construction phase shall not create any adverse effect on the neighbouring communities and be disposed taking the necessary precautions for general safety and health aspects of people, only in approved sites with the approval of competent authority.
- iii. Separate wet and dry bins must be provided in each unit and at the ground level for facilitating segregation of waste. Solid waste shall be segregated into wet garbage and inert materials.
- iv. Organic waste compost/ Vermiculture pit/ Organic Waste Converter within the premises with a minimum capacity of 0.3 kg /person/day must be installed.
- v. All non-biodegradable waste shall be handed over to authorized recyclers for which a written tie up must be done with the authorized recyclers.
- vi. Any hazardous waste generated during construction phase, shall be disposed off as per applicable rules and norms with necessary approvals of the State Pollution Control Board.
- vii. Use of environment friendly materials in bricks, blocks and other construction materials, shall be required for at least 20% of the construction material quantity. These include Fly Ash bricks, hollow bricks, AACs, Fly Ash Lime Gypsum blocks, Compressed earth blocks, and other environment friendly materials.
- viii. Fly ash should be used as building material in the construction as per the provision of Fly Ash Notification of September, 1999 and amended as on 27th August, 2003 and 25th January, 2016. Ready mixed concrete must be used in building construction.

- ix. Any wastes from construction and demolition activities related thereto shall be managed so as to strictly conform to the Construction and Demolition Waste Management Rules, 2016.
- x. Used CFLs and TFLs should be properly collected and disposed off/sent for recycling as per the prevailing guidelines/ rules of the regulatory authority to avoid mercury contamination.

VII. Green Cover:

- i. No tree can be felled/transplant unless exigencies demand. Where absolutely necessary, tree felling shall be with prior permission from the concerned regulatory authority. Old trees should be retained based on girth and age regulations as may be prescribed by the Forest Department. Plantations to be ensured species (cut) to species (planted).
- ii. Where the trees need to be cut with prior permission from the concerned local Authority, compensatory plantation in the ratio of 1:10 (i.e. planting of 10 trees for every 1 tree that is cut) shall be done and maintained. Plantations to be ensured species (cut) to species (planted). Area for green belt development shall be provided as per the details provided in the project document.
- iii. Topsoil should be stripped to a depth of 20 cm from the areas proposed for buildings, roads, paved areas, and external services. It should be stockpiled appropriately in designated areas and reapplied during plantation of the proposed vegetation on site.

VIII. Transport

- i. A comprehensive mobility plan, as per MoUD best practices guidelines (URDPFI), shall be prepared to include motorized, non-motorized, public, and private networks. Road should be designed with due consideration for environment, and safety of users. The road system can be designed with these basic criteria.
 - a. Hierarchy of roads with proper segregation of vehicular and pedestrian traffic.
 - b. Traffic calming measures.
 - c. Proper design of entry and exit points.
 - d. Parking norms as per local regulation.
- ii. Vehicles hired for bringing construction material to the site should be in good condition and should have a pollution check certificate and should conform to applicable air and noise emission standards be operated only during non-peak hours.
- iii. A detailed traffic management and traffic decongestion plan shall be drawn up to ensure that the current level of service of the roads within a 05 kms radius of the project is maintained and improved upon after the implementation of the project. This plan should be based on cumulative impact of all development and increased habitation being carried out or proposed to be carried out by the project or other agencies in this 05 Kms radius of the site in different scenarios of space and time and the traffic management plan shall be duly validated and certified by the State Urban Development department and the P.W.D./ competent authority for road augmentation and shall also have their

consent to the implementation of components of the plan which involve the participation of these departments.

IX. Human health issues:

- i. All workers working at the construction site and involved in loading, unloading, carriage of construction material and construction debris or working in any area with dust pollution shall be provided with dust mask.
- ii. For indoor air quality the ventilation provisions as per National Building Code of India.
- iii. Emergency preparedness plan based on the Hazard identification and Risk Assessment (HIRA) and Disaster Management Plan shall be implemented.
- iv. Provision shall be made for the housing of construction labour within the site with all necessary infrastructure and facilities such as fuel for cooking, mobile toilets, mobile STP, safe drinking water, medical health care, crèche etc. The housing may be in the form of temporary structures to be removed after the completion of the project.
- v. Occupational health surveillance of the workers shall be done on a regular basis.
- vi. A First Aid Room shall be provided in the project both during construction and operations of the project.

X. Miscellaneous:

- i. The project proponent shall prominently advertise it at least in two local newspapers of the District or State, of which one shall be in the vernacular language within seven days indicating that the project has been accorded environment clearance and the details of MoEFCC/SEIAA website where it is displayed.
- ii. The copies of the environmental clearance shall be submitted by the project proponents to the Heads of local bodies, Panchayats and Municipal Bodies in addition to the relevant offices of the Government who in turn has to display the same for 30 days from the date of receipt.
- iii. The project proponent shall upload the status of compliance of the stipulated environment clearance conditions, including results of monitored data on their website and update the same on half-yearly basis.
- iv. The project proponent shall submit six-monthly reports on the status of the compliance of the stipulated environmental conditions on the website of the ministry of Environment, Forest and Climate Change at environment clearance portal.
- v. The company shall have a well laid down environmental policy duly approved by the Board of Directors. The environmental policy should prescribe for standard operating procedures to have proper checks and balances and to bring into focus any infringements/deviation/violation of the environmental / forest / wildlife norms / conditions. The company shall have defined system of reporting infringements / deviation / violation of the environmental / forest / wildlife norms / conditions and / or shareholders / stake holders. The copy of the board resolution in this regard shall be submitted to the MoEF&CC as a part of six-monthly report.

- vi. A separate Environmental Cell both at the project and company head quarter level, with qualified personnel shall be set up under the control of senior Executive, who will directly report to the head of the organization.
- vii. Action plan for implementing EMP and environmental conditions along with responsibility matrix of the company shall be prepared and shall be duly approved by competent authority. The year wise funds earmarked for environmental protection measures shall be kept in separate account and not to be diverted for any other purpose. Year wise progress of implementation of action plan shall be reported to the Ministry/Regional Office along with the Six Monthly Compliance Report
- viii. The project proponent shall submit the environmental statement for each financial year in Form-V to the concerned State Pollution Control Board as prescribed under the Environment (Protection) Rules, 1986, as amended subsequently and put on the website of the company.
- ix. The project proponent shall inform the Regional Office as well as the Ministry, the date of financial closure and final approval of the project by the concerned authorities, commencing the land development work and start of production operation by the project.
- x. The project authorities must strictly adhere to the stipulations made by the State Pollution Control Board and the State Government.
- xi. The project proponent shall abide by all the commitments and recommendations made in the EIA/EMP report and also that during their presentation to the Expert Appraisal Committee.
- xii. No further expansion or modifications in the plant shall be carried out without prior approval of the Ministry of Environment, Forest and Climate Change (MoEF&CC).
- xiii. Concealing factual data or submission of false/fabricated data may result in revocation of this environmental clearance and attract action under the provisions of Environment (Protection) Act, 1986.
- xiv. The Ministry may revoke or suspend the clearance, if implementation of any of the above conditions is not satisfactory.
- xv. The Ministry reserves the right to stipulate additional conditions if found necessary. The Company in a time bound manner shall implement these conditions.
- xvi. The Regional Office of this Ministry shall monitor compliance of the stipulated conditions. The project authorities should extend full cooperation to the officer (s) of the Regional Office by furnishing the requisite data / information/monitoring reports.
- xvii. The above conditions shall be enforced, inter-alia under the provisions of the Water (Prevention & Control of Pollution) Act, 1974, the Air (Prevention & Control of Pollution) Act, 1981, the Environment (Protection) Act, 1986, Hazardous and Other Wastes (Management and Transboundary Movement) Rules, 2016, and the Public Liability Insurance Act, 1991 along with their amendments and Rules and any other orders passed by the Hon'ble Supreme Court of India / High Courts and any other Court of Law relating to the subject matter.
- xviii. Any appeal against this EC shall lie with the National Green Tribunal, if preferred, within a period of 30 days as prescribed under Section 16 of the National Green Tribunal Act, 2010.

8. The Environmental Clearance is being granted to M/s. A.B Alcobel (P) Ltd. for Expansion of a Commercial Project namely "CP.67" earlier "Homeland Mall" in Sector 67, Distt. SAS Nagar (Mohali), Punjab.

9. This issues with the approval of the Competent Authority.

PUNJAB WATER REGULATION AND DEVELOPMENT AUTHORITY
SCO 149-152, SECTOR 17, CHANDIGARH – 160017
ad interim PERMISSION FOR EXTRACTION OF GROUNDWATER

Name of Unit	CP. 67 by M/s AB Alcobev Pvt. Ltd.		
Activity of Unit:	Infrastructure		
Address of Unit:	CP. 67, Site No. 252, Sector 67, SAS Nagar, Punjab		PIN Code: 160062
Assessment Unit (Block):	Kharar	Category:	Yellow
District:	SAS Nagar		
Correspondence Address:	Corporate Office, 154, 1 st Floor, Aggarwal Cyber Plaza, Plot No. C-4,5,6, Netaji Subhash Place Pitampura, New Delhi	PIN Code: 110034	
Unit ID	0940500020		
Permission Number	PWRDA/02/2021/L2/22		Dated: 23.02.2021
Project Status:	New Unit		
Permission Type:	<i>ad-interim</i> Permission		
Validity Period:	For a period of three months from the date of publication of the final guidelines by the Authority, or for three years from the date of grant of this <i>ad interim</i> permission, whichever is earlier.		
Ground Water Extraction Permitted: 239 m ³ /day			
Fresh Water		Saline Water	
m ³ /day	m ³ /month*	m ³ /day	m ³ /month*
239	7,170	-	-

*Note:- Month is taken as 30 days for calculation of charges.

Fees and Charges Paid:

A. Application Fees for Groundwater Extraction:

Volume of Groundwater Extraction Applied For per day (in m ³ /day)	Fees Deposited (in Rs.)
239	16,000/- (20% Covid-19 rebate applied)

B. Advance Deposit equivalent to two months of charges for the permitted quantity of groundwater extraction:

Category of Area	Extraction Permitted: (m ³ /day)	239	Amount Deposited (Rs.)
Yellow	Charges for two months		
	≤10 m ³ /day	10-100 m ³ /day	>100 m ³ /day
	3,600	75,600	1,50,120

C. Tube-well Registration Fee paid:

No. of existing tube-wells	No. of Proposed tube-wells	No. of total tube-wells	Registration Fee applicable per tube-well	Total Registration Fee Paid (Rs.)
Nil	02	02	10,000/-	16,000/- (20% Covid-19 rebate applied)

D. Total Amount Paid (Rs.):

Application Fee	Advance Deposit	Tube-well Registration Fee	Total(Rs.)
16,000/-	1,83,456/-	16,000/-	2,15,456/-

NOTE: This permission is granted in terms of the Draft Punjab Guidelines for Groundwater Extraction and Conservation published on November 12, 2020 under section 15 of the Punjab Water Resources (Regulation and Management) Act 2020 and is subject to the conditions given overleaf.

Dated: 23rd February, 2021
Place: CHANDIGARH

Signature
Jobanpreet Singh, A.O Level-2

ad interim PERMISSION CONDITIONS

- 1) The permission is valid for a period of three months from the date of publication of the final guidelines by the Authority, or for three years from the date of grant of this ad interim permission, whichever is earlier. The unit will apply again for Permission within one month after the publication of the final Guidelines.
- 2) Since, this Permission has been issued on the basis of self-assessment by the applicant and without any site inspection or verification of documents submitted by the applicant, hence the Authority may inspect the unit and documents at any time. In case any material difference is found in the information submitted and the site conditions or documents, the Authority may suspend the permission granted immediately and may revoke or modify the permission after giving a notice to the Unit.
- 3) The unit shall comply with the provisions of the Punjab Water Resources (Management and Regulation) Act, 2020, and the Regulations and Directions issued thereunder.
- 4) A Unit operational prior to 12/11/2020 shall be liable to pay groundwater extraction charges w.e.f. 12th Nov, 2020. A unit which is yet to begin operations shall be liable to pay the charges from the date of commencement of extraction of groundwater.
- 5) The unit shall install a water meter at each of its extraction structures within 60 days of issue of this permission letter (Refer Para 7.1 of the Draft Guidelines.)
- 6) Till the installation of water meter the Unit shall pay the full amount for the entire volume of groundwater permitted.
- 7) The Unit shall self-record the water meter readings in the format set by the Authority on the first working day of every month and submit the same and pay the applicable charges to PWRDA by 10th of every month.
- 8) Units permitted to extract 50m³/day or more groundwater shall communicate water level data to PWRDA in the first week of every month. (Refer para 7.2 of the Draft Guidelines).
- 9) This Permission does not absolve the unit of its obligations to obtain other required statutory and administrative clearances from appropriate authorities.
- 10) The issue of this Permission does not imply that other statutory or administrative clearances shall necessarily be granted to the unit by the concerned authorities.
- 11) This Permission is being issued without any prejudice to the directions of any court of law in cases related to groundwater or any other related matters.
- 12) Water conservation credit claims (if any) will be examined and verified separately.
- 13) In view of the Covid-19 epidemic, the Groundwater Charges in the Draft Guidelines.
- 14) Since, the unit has not paid the GST. Hence, it will be bound to deposit the same within 7 days as and when required by the Authority.

Designation : A.O.L-2

Terms and Conditions

1. User shall comply with the provisions of the Punjab Water Resources (Management and Regulation) Act, 2020, The Punjab Groundwater Extraction and Conservation Directions, 2023 and other Regulations, Directions and instructions issued by the Authority from time to time.
 2. The User shall install a water meter of required Specifications at each extraction structure and inform PWRDA along with Calibration Certificate within three months of issue of this Permission. The water meter shall conform to the technical specifications, performance parameters and connectivity standards, etc. as required by the Authority.
 3. The User (if required to install piezometer as per Directions) shall install the piezometer of the required specifications within three months of issue of this permission. (refer para 5.2 of the Directions).
 4. Payment Cycle and Schedule shall be as per para 4.8 of the Directions.
 5. In case of proposed water extraction structure which is yet to be commissioned, the user will intimate the Authority regarding all the details of the structure within 15 days of energizing of structure.
 6. This Permission does not absolve the Unit of its obligations to obtain other required statutory and administrative clearances from appropriate Authorities.
 7. The issue of this Permission does not imply that other statutory or administrative clearances shall necessarily be granted to the unit by the concerned Authorities.
 8. This Permission is being issued without any prejudice to the orders of any court of law in cases related to groundwater or other related matters.
 9. The Authority may inspect the Unit and original documents at any time. In case it is found that any material facts have been concealed or misreported or any material difference is found in the information submitted and the site conditions and documents, the Authority may suspend the permission granted immediately and may cancel or alter the permission after giving a notice to the Unit. This will be without prejudice to any other action that may be taken under the law for supply of wrong information.
 10. The User is advised to keep on checking the website of the Authority for updates on Directions and instructions on matters related to extraction of groundwater.
 11. The User shall obtain revised/varied/fresh permission as the case may be, in case there is any change in ground extraction structure, volume etc, before the aforesaid change is affected or within the time permitted under the Directions.
 12. A user shall apply for renewal of permission in the required format three months prior to the expiry of permission.

All the term and conditions same as mentioned in the consent no. CTOA/Renewal/SAS/2023/21407313 dated 6/5/2023 (valid upto 31/3/2024), is hereby further extended upto 31/3/2025. This extension letter may be appended with the original consent letter issued to the industry and subsequent extension letter with the following additional conditions that:

- 1) The project proponent shall operate its STP regularly & efficiently and shall maintain operational record of the same on daily basis.
- 2) The project proponent will not discharge its untreated/ treated wastewater into any drain/ choe/ river under any circumstances.
- 3) The project proponent shall maintain separate record regarding treated water being generated from the project and being re-utilized in green area and flushing.
- 4) The project proponent shall place adequate no. of bins outside its premises from where the Municipal Solid Waste shall be collected.
- 5) The project proponent shall not discharge any treated/ untreated wastewater into sewer/ drain/ choe under any circumstances.
- 6) The project proponent shall properly handle and manage the solid waste as per the provisions of the Municipal Solid Waste Management Rules, 2016 and ensure that the solid waste is segregated into biodegradable and non-biodegradable components. The biodegradable component shall be treated produce compost, which will be disposed of/ reused in an environmentally sound manner and the non-biodegradable solid waste shall also be disposed of in an environmentally sound manner.
- 7) The project proponent shall also ensure that the hazardous waste and e-waste components of the solid waste shall also be segregated and the same shall be channelized to the authorized facility for such type of waste.
- 8) The industry shall ensure that the activity of unit does not create any nuisance in the surrounding areas and no public complaints are received.
- 9) This consent is being issued to the industry based upon the documents/ information submitted by it along with the online application form. The Board would be at liberty to take penal action against the industry and its responsible/ concerned person(s) in case information/ document is detected as incorrect/ false/ misleading at any point of time.
- 10) In case the project proponent fails to comply with the provisions of the Water (Prevention & Control of Pollution) Act, 1974, the Air (Prevention & Control of Pollution) Act, 1981, the Environment (Protection) Act, 1986 and/ or any other environmental law applicable to the project and Rules, Circulars & Directions issued by the Board from time to time, action as deemed fit shall be taken against the project proponent.
- 11) The project proponent shall ensure the compliance of provisions of the Water (Prevention & Control of Pollution) Act, 1974, the Air (Prevention & Control of Pollution) Act, 1981, the Environment (Protection) Act, 1986 and/ or any other environmental law applicable to the industry and Rules, Circulars & Directions issued by the Board from time to time, at all times.
- 12) The project proponent shall devise the ways & means to minimize the generation of all kind of wastes through REDUCE, REUSE and RECYCLE activities. The generated waste, if any, shall be properly handled and managed as per the provisions of the Municipal Solid Waste Rules 2016 in an environmentally sound manner.
- 13) The industry shall develop the vermicomposting/ composting to manage the biodegradable solid waste. PP shall not throw, burn or bury any solid wastes in open, outside premises or in drain/ water bodies.
- 14) The project proponent shall ensure that there are no usages of plastic carry bags and single use plastic/ thermocol disposable items such as water bottles/ water pouches/ water cups, plates, forks, spoons, straw etc. and single use decorating material made of plastic-thermocol or any other non-biodegradable material in the premises.
- 15) The project proponent shall perform/ promote its Corporate Environment Responsibility (CER) activities as well as use of alternatives of single use plastics (SUP) and awareness to discourage use of plastic.
- 16) The project proponent shall carry out awareness and activities for the themes/ action points identified under Mission LiFE (Lifestyle for the Environment) by Ministry of Environment, Forests and Climate Change given at the website (<http://missionlife-moefcc.nic.in>).

Page 1

All the term and conditions same as mentioned in the consent no. CTOW/Renewal/SAS/2023/21407661 dated 6/5/2023 (valid upto 31/3/2024), is hereby further extended upto 31/3/2025. This extension letter may be appended with the original consent letter issued to the industry and subsequent extension letter with the following additional conditions that:

- 1) The project proponent shall operate its STP regularly & efficiently and shall maintain operational record of the same on daily basis.
- 2) The project proponent will not discharge its untreated/ treated wastewater into any drain/ choe/ river under any circumstances.
- 3) The project proponent shall maintain separate record regarding treated water being generated from the project and being re-utilized in green area and flushing.
- 4) The project proponent shall place adequate no. of bins outside its premises from where the Municipal Solid Waste shall be collected.
- 5) The project proponent shall not discharge any treated/ untreated wastewater into sewer/ drain/ choe under any circumstances.
- 6) The project proponent shall properly handle and manage the solid waste as per the provisions of the Municipal Solid Waste Management Rules, 2016 and ensure that the solid waste is segregated into biodegradable and non-biodegradable components. The biodegradable component shall be treated produce compost, which will be disposed of/ reused in an environmentally sound manner and the non-biodegradable solid waste shall also be disposed of in an environmentally sound manner.
- 7) The project proponent shall also ensure that the hazardous waste and e-waste components of the solid waste shall also be segregated and the same shall be channelized to the authorized facility for such type of waste.
- 8) The industry shall ensure that the activity of unit does not create any nuisance in the surrounding areas and no public complaints are received.
- 9) This consent is being issued to the industry based upon the documents/ information submitted by it along with the online application form. The Board would be at liberty to take penal action against the industry and its responsible/ concerned person(s) in case information/ document is detected as incorrect/ false/ misleading at any point of time.
- 10) In case the project proponent fails to comply with the provisions of the Water (Prevention & Control of Pollution) Act, 1974, the Air (Prevention & Control of Pollution) Act, 1981, the Environment (Protection) Act, 1986 and/ or any other environmental law applicable to the project and Rules, Circulars & Directions issued by the Board from time to time, action as deemed fit shall be taken against the project proponent.
- 11) The project proponent shall ensure the compliance of provisions of the Water (Prevention & Control of Pollution) Act, 1974, the Air (Prevention & Control of Pollution) Act, 1981, the Environment (Protection) Act, 1986 and/ or any other environmental law applicable to the industry and Rules, Circulars & Directions issued by the Board from time to time, at all times.
- 12) The project proponent shall devise the ways & means to minimize the generation of all kind of wastes through REDUCE, REUSE and RECYCLE activities. The generated waste, if any, shall be properly handled and managed as per the provisions of the Municipal Solid Waste Rules 2016 in an environmentally sound manner.
- 13) The industry shall develop the vermicomposting/ composting to manage the biodegradable solid waste. PP shall not throw, burn or bury any solid wastes in open, outside premises or in drain/ water bodies.
- 14) The project proponent shall ensure that there are no usages of plastic carry bags and single use plastic/ thermocol disposable items such as water bottles/ water pouches/ water cups, plates, forks, spoons, straw etc. and single use decorating material made of plastic-thermocol or any other non-biodegradable material in the premises.
- 15) The project proponent shall perform/ promote its Corporate Environment Responsibility (CER) activities as well as use of alternatives of single use plastics (SUP) and awareness to discourage use of plastic.
- 16) The project proponent shall carry out awareness and activities for the themes/ action points identified under Mission LiFE (Lifestyle for the Environment) by Ministry of Environment, Forests and Climate Change given at the website (<http://missionlife-moefcc.nic.in>).

*For & on behalf
of
(Punjab Pollution Control Board)*

TERMS AND CONDITIONS

A. GENERAL CONDITIONS

1. This consent is not valid for getting power load from the Punjab State Power Corporation Ltd. or for getting loan from the financial institutions.
2. The industry shall apply for renewal /extension of consent at least two months before expiry of the consent.
3. The industry shall not violate any of the norms prescribed under the Air (Prevention & Control of Pollution) Act, 1981, failing which, the consent shall be cancelled / revoked.
4. The achievement of adequacy and efficiency of the air pollution control devices installed shall be the entire responsibility of the industry
5. The authorized fuel being used shall not be changed without the prior written permission of the Board.
6. The industry shall not discharge any fugitive emissions. All gases shall be emitted through a stack of suitable height, as per the norms fixed by the Board from time to time.
7. The industry shall provide port-holes, platforms and/or other necessary facilities as may be required for collecting samples of emissions from any chimney, flue or duct or any other outlets.

Specifications of the port-holes shall be as under:-

- i) The sampling ports shall be provided atleast 8 times chimney diameter downstream and 2 times upstream from the flow disturbance. For a rectangular cross section the equivalent diameter (D_e) shall be calculated from the following equation to determine upstream, downstream distance:-

$$D_e = 2 LW / (L+W)$$

Where L= length in mts. W= Width in mts.

- ii) The sampling port shall be 7 to 10 cm in diameter

8. The industry shall put display Board indicating environmental data in the prescribed format at the main entrance gate.
9. The industry shall discharge all gases through a stack of minimum height as specified in the following standards laid down by the Board.

(i) Stack height for boiler plants

S.NO.	Boiler with Steam Generating Capacity	Stack heights
1.	<i>Less than 2 ton/hr.</i>	9 meters or 2.5 times the height of neighboring building which ever is more
2.	<i>More than 2 ton/hr. to 5 ton/hr.</i>	12 meters
3.	<i>More than 5 ton/hr. to 10 ton/hr</i>	15 meters
4.	<i>More than 10 ton/hr. to 15 ton/hr</i>	18 meters
5.	<i>More than 15 ton/hr. to 20 ton/hr</i>	21 meters
6.	<i>More than 20 ton/hr. to 25 ton/hr.</i>	24 meters
7.	<i>More than 25 ton/hr. to 30 ton/hr.</i>	27 meters
8.	<i>More than 30 ton/hr.</i>	30 meters or using the formula $H = 14 Qg0.3$ or $H = 74 (Qp)0.24$ Where Qg = Quantity of SO ₂ in Kg/hr. Qp = Quantity of particulate matter in Ton/day.

Note : Minimum Stack height in all cases shall be 9.0 mtr. or as calculated from relevant formula whichever is more.

(ii) For industrial furnaces and kilns, the criteria for selection of stack height would be based on fuel used for the corresponding steam generation.

(iii) Stack height for diesel generating sets:

Capacity of diesel generating set		Height of the Stack
0-50 KVA	Height of the building	+ 1.5 mt
50-100 KVA	-do-	+ 2.0 mt.
100-150 KVA	-do-	+ 2.5 mt.
150-200 KVA	-do-	+ 3.0 mt.
200-250 KVA	-do-	+ 3.5 mt.
250-300 KVA	-do-	+ 3.5 mt.

For higher KVA rating stack height H (in meter) shall be worked out according to the formula:

$$H = h + 0.2 \text{ (KVA)} 0.5$$

where h = height of the building in meters where the generator set is installed.

10. The pollution control devices shall be interlocked with the manufacturing process of the industry to ensure its regular operation.
11. The existing pollution control equipment shall be altered or replaced in accordance with the directions of the Board, and no pollution control equipment or chimney shall be altered or as the case may be erected or re-erected except with the prior approval of the Board.
12. The industry will provide canopy and adequate stack with the D.G sets so as to comply with the provision of notification No GSR-371 E dated 17-5-2002(amended from time to time) issued by MOEF under Environment (Protection) Act, 1986.
13. The Govt. of Punjab, Department of Science, Technology & Environment vide its notification no.4/46/92-3ST/2839 dt. 29/12/1993 has put prohibition on the use of rice husk as fuel after 1.4.1995 except the following:-
i.e½In the form of briquettes and use of rice husk in fluidized bed combustion. So the industry shall make the necessary arrangement to comply with the above notification.i.e½
14. The industry shall submit balance sheet of every financial year to the concerned Regional Office by 30th June of every year
15. That the industry shall submit a yearly certificate to the effect that no addition / up-gradation/ modification/modernization has been carried out during the previous year otherwise the industry shall apply for the varied consent.
16.
 - a) The industry shall ensure that at any time the emission do not exceed the prescribed emissions standards laid down by the Board from time to time for such type of industry /emissions.
 - b) The industry shall ensure that the emissions from each stack shall conform to the following emission standards laid down by the Board in respect of the Industrial Boilers.

<i>Steam Generating capacity A.</i>	<i>Required particulate matter B.</i>	
<i>Area upto 5 Km from Other than 'A' class Other than the periphery of I and Class-II town</i>		
<i>Less than 2 ton/hr.</i>	<i>800 mg/NM3</i>	<i>1200 mg/NM3</i>
<i>2 ton to 10 ton/hr.</i>	<i>500 mg/NM3</i>	<i>1000 mg/NM3</i>
<i>Above 10 ton to 15 ton/hr</i>	<i>350 mg/NM3</i>	<i>500 mg/NM3</i>
<i>Above 15 ton/hr</i>	<i>150 mg/NM3</i>	<i>150 mg/NM3</i>

All emissions normalized to 12% carbon dioxide.

17. The industry shall ensure that the Hazardous Wastes generated from the premises are handled as per the provisions of the Hazardous Waste (Management, Handling and Transboundary Movement) Rules, 2008, without any adverse effect on the environment, in any manner.
18. The air pollution control equipments shall be kept at all time in good running condition and;

- (i) All failures of control equipments.
 - (ii) The emissions of any air pollutant into the atmosphere in excess of the standards lay down by the Board occurring or being apprehended to occur due to accident or other unforeseen act or event. 'Shall be intimated through fax to the concerned Regional Office as well as to the Director of Factories, Punjab, Chandigarh as required under rule 10 of the Punjab State Board for the Prevention and Control of Air Pollution Rules, 1983'.
19. The industry shall plant minimum of three suitable varieties of trees at the density of not less than 1000 trees per hectare all along the boundary of the industrial premises.
20. The industry shall submit a site emergency plan approved by the Chief Inspector of Factories, Punjab as applicable.
21. The industry shall comply with the conditions imposed by the SEIAA/MOEF in the Environmental Clearance granted to it as required under EIA notification dated 14/9/06, if applicable.
22. The industry shall make necessary arrangements for the monitoring of stack emissions and shall get its emissions analyzed from lab approved / authorized by the Board:-
- (i) Once in Year for Small Scale Industries.
 - (ii) Twice/thrice/four time in a Year for Large/Medium Scale Industries.
23. The industry shall maintain the following record to the satisfaction of the Board :-
- (i) Log books for running of air pollution control devices or pumps/motors used for it.
 - (ii) Register showing the result of various tests conducted by the industry for monitoring of stack emissions and ambient air.
 - (iii) Register showing the stock of absorbents and other chemicals to be used for scrubbers.
24. The industry will install the separate energy meter for running pollution control devices and shall maintain record with respect to operation of air pollution control device so as to satisfy the Board regarding the regular operation of air pollution control device and monthly reading / record may be sent to the Board by the fifth of the following month.
25. The industry shall provide online monitoring system as applicable, for in stack emission and shall maintain the record of the same for inspection of the Board Officers.
26. The Board reserves the right to revoke the consent granted to the industry at any time, in case the industry is found violating the provisions of Air (Prevention & Control of Pollution) Act, 1981 as amended from time to time.
27. The industry shall comply with any other conditions laid down or directions issued in due course by the Board under the provisions of the Air (Prevention & Control of Pollution) Act, 1981.
28. Nothing in this consent shall be deemed to neither preclude the institution of any legal action nor relieve the applicant from any responsibilities, liabilities or penalties to which the applicant is or may be subjected to under this or any other Act.
29. Any amendments/revisions made by the Board/CPCB/MOEF in the emission/stack height standards shall be applicable to the industry from the date of such amendments/revisions.
30. The industry shall dispose off its solid waste generated by the burning of fuel in an Environmentally Sound Manner within the premises/outside as approved by the Board, to avoid public nuisance and air pollution problem in the area.
31. The industry shall ensure that no air pollution problem or public nuisance is created in the area due to the discharge of emissions from the industry.
32. The industry shall provide adequate arrangement for fighting the accidental leakage/discharge of any air pollutant/gas/ liquids from the vessels, mechanical equipment's etc, which are likely to cause environmental pollution.
33. The industry shall not change or alter the manufacturing process(es) and fuel so as to change the quality/quantity of emissions generated without the prior permission of the Board.
34. The industry shall earmark a land within their premises for disposal of boiler ash in an environmentally sound manner, and / or the industry shall make necessary arrangements for proper disposal of fuel ash in a scientific manner and shall maintain proper record for the same, if applicable.
35. The industry shall obtain and submit Insurance cover under the Public Liability Insurance Act, 1991.
36. The industry shall provide proper and adequate air pollution control arrangements for control emission from its fuel handling area, if applicable.

37. The industry shall comply with the code of practice as notified by the Government/Board for the type of industries where the siting guidelines / Code of Practice have been notified.
38. The industry shall not cause any nuisance/traffic hazard in vicinity of the area
39. The industry shall ensure that the noise & air emission from D.G. sets do not exceed the standards prescribed for D.G. sets by the Ministry of Environment & Forests, New Delhi.
40. The industry shall ensure that there will not be significant visible dust emissions beyond the property line
41. The industry shall provide adequate and appropriate air pollution control devices to contain emissions from handling, transportation and processing of raw material & product of the industry.
42. The Industry shall ensure that its production capacity does not exceed the capacity mentioned in the consent and shall not carry out any expansion without the prior permission / NOC of the Board.

B. SPECIAL CONDITIONS

- 1) The project proponent will provide water meter over the borewells and keep record.
- 2) The project proponent will complete the work of 2nd module of STP of 195 KLD capacity immediately and inform to Board. The project proponent will provide separate water meter over the line leading to plantation, flushing and GMADA sewer and will maintain record. The project proponent will replace the faulty water meter.
- 3) The project proponent will complete the work of connection of treated water line from outlet of STP to plantation area, flushing, HVAC / DG Cooling and GMADA sewer immediately & inform Board. The project proponent will ensure that no fresh water is being supplied for plantation area & flushing activities.
- 4) The project proponent will complete the electrical work of ETP, connect the treated water line with gardening, install filter press with the ETP, provide flow meter with the ETP and maintain record of operation of ETP.
- 5) The project proponent will install mechanical composters of adequate size within the site for treatment of bio-degradable waste and keep record.
- 6) The project proponent will ensure that no single use plastic items banned by MoEFCC notification no. G.S.R. 571(E) dated 12.08.2021 are being used within the project premises.
- 7) The project proponent will complete the work of development of green area @ 350 sqm and inform Board.
- 8) The project proponent may also develop the vermicomposting/composting to manage the biodegradable solid waste. PP shall not throw, burn or bury any solid wastes in open, outside premises or in drain / water bodies.
- 9) The project proponent shall promote use of alternatives of single use plastics (SUP) and awareness to discourage use of plastic, through their Corporate Environment Responsibility (CER) activities.
- 10) The project proponent shall ensure that there are no usages of single use plastic- thermocol disposable items such as water bottles / water pouches/water cups, plates, forks, spoons, straw etc. and single use decorating material made of plastic-thermocol or any other non-biodegradable material in the premises.
- 11) The project proponent shall properly handle and manage the solid wastages as per the provisions of the Municipal Solid Waste Rules 2016 and ensure that the solid waste is segregated & disposed of in an environmentally sound manner.

TERMS AND CONDITIONS

A. GENERAL CONDITIONS

1. This consent is not valid for getting power load from the Punjab State Power Corporation Limited or for getting loan from the financial institutions.
2. The industry shall apply for renewal/further extension in validity of consent atleast two months before expiry of the consent.
3. The industry shall ensure that the effluent discharging through the authorized outlet shall confirm to the prescribed standards as applicable from time to time.
4. The industry shall plant minimum of three suitable varieties of trees at the density of not less than 1000 trees per hectare all along the boundary of the industrial premises.
5. The achievement of the adequacy and efficiency of the effluent treatment plant/pollution control devices/recirculation system installed shall be the entire responsibility of the industry.
6. The industry shall ensure that the Hazardous Wastes generated from the premises are handled as per the provisions of the Hazardous Wastes(Management, Handling and Trans boundary Movement) Rules, 2008 as amended time to time , without any adverse effect on the environment, in any manner
7. The responsibility to monitor the effluent discharged from the authorized outlet and to maintain a record of the same rests with the industry. The Board shall only test check the accuracy of these reports for which the industry shall deposit the samples collection and testing fee with the Board as and when required.
8. The industry shall submit balance sheet of every financial year to the concerned Regional Office by 30th June of every year.
9. The industry shall submit a yearly certificate to the effect that no addition/up-gradation/ modification/modernization has been carried out during the previous year otherwise the industry shall apply for the varied consent.
10. During the period beginning from the date of issuance and the date of expiration of this consent, the applicant shall not discharge floating solids or visible foam.
11. Any amendments/revisions made by the Board in the tolerance limits for discharges shall be applicable to the industry from the date of such amendments/revisions.
12. The industry shall not change or alter the manufacturing process(es) so as to change the quality and/or quantity of the effluents generated without the written permission of the Board.
13. Any upset conditions in the plant/plants of the factory, which is likely to result in increased effluent and/or result in violation of the standards lay down by the Board shall be reported to the Environmental Engineer, Punjab Pollution Control Board of concerned Regional Office immediately failing which any stoppage and upset conditions that come to the notice of the Board/its officers, will be deemed to be intentional violation of the conditions of consent.
14. The industry shall provide terminal manhole(s) at the end of each collection system and a manhole upstream of final outlet (s) out of the premises of the industry for measurement of flow and for taking samples.
15. The industry shall for the purpose of measuring and recording the quantity of water consumed and effluent discharged, affix meters of such standards and at such places as approved by the Environmental Engineer, Punjab Pollution Control Board of the concerned Regional Office.
16. The industry shall maintain record regarding the operation of effluent treatment plant i.e. record of quantity of chemicals and energy utilized for treatment and sludge generated from treatment so as to satisfy the Board regarding regular and proper operation of pollution control equipment.
17. The industry shall provide online monitoring equipment^{1/2s} for the parameters as decided by concerned Regional Office with the effluent treatment plant/air pollution control devices installed, if applicable.
18. The pollution control devices shall be interlocked with the manufacturing process of the industry.
19. The authorized outlet and mode of disposal shall not be changed without the prior written permission of the Board.
20. The industry shall comply with the conditions imposed by the SEIAA / MOEF in the environmental clearance granted to it as required under EIA notification dated14/9/06, if applicable.
21. The industry shall obtain and submit Insurance cover as required under the Public Liability Insurance Act, 1991.
22. The industry shall not use any unauthorized out-let(s) for discharging effluents from its premises. All unauthorized outlets, if any, shall be connected to the authorized outlet within one month from the date of issue of this consent.

Cp.67 By M/s. Ab Alcohev Pvt. Ltd.,Site No. 252, Sector-67, Airport Road, Sas Nagar (mohali), Punjab,Mohali,Sas Nagar,160062

Page3

23. The industry shall make necessary arrangements for the monitoring of effluent being discharged by the industry and shall monitor its effluents:-
- (i) Once in Year for Small Scale Industries.
 - (ii) Four in a Year for Large/Medium Scale Industries.
 - (iii) The industry will submit monthly reading/ data of the separate energy meter installed for running of effluent treatment plant/re-circulation system to the concerned Regional Office of the Board by the 5th of the following month.
24. The industry shall provide electromagnetic flow meters at the source of water supply, at inlet/outlet of effluent treatment plant within one month and shall maintain the record of the daily reading and submit the same to the concerned Regional Office by the 5th of the following month.
25. The Board reserves the right to revoke this consent at any time in case the industry is found violating any of the conditions of this consent and/or the provisions of Water (Prevention & Control of Pollution) Act, 1974 as amended from time to time.
26. The issuance of this consent does not convey any property right in either real or personal property, or any exclusive privileges, nor does it authorize any injury to private property or any invasion of personal rights, nor any infringement of Central, State or Local Laws or Regulations.
27. The consent does not authorize or approve the construction of any physical structures or facilities for undertaking of any work in any natural watercourse.
28. Nothing in this consent shall be deemed to neither preclude the institution of any legal action nor relieve the applicant from any responsibilities, liabilities or penalties to which the applicant is or may be subjected under this or any other Act.
29. The industry shall make necessary and adequate arrangements to hold back the effluent in case of failure of septic tank.
30. The diversion or bye pass of any discharge from facilities utilized by the applicant to maintain compliance with the terms and conditions of this consent is prohibited except.
- (i) Where unavoidable to prevent loss of life or some property damage or
 - (ii) Where excessive storm drainage or run off would damage facilities necessary for compliance with terms and conditions of this consent. The applicant shall immediately notify the consent issuing authority in writing of each such diversion or bye-pass.
31. The industry shall ensure that no water pollution problem is created in the area due to discharge of effluents from its industrial premises.
32. The industry shall comply with the code of practice as notified by the Government/ Board for the type of industries where the siting guidelines/ code of practice have been notified.
33. Solids, sludge, filter backwash or other pollutant removed from or resulting from treatment or control of waste waters shall be disposed off in such a manner to prevent any pollutants from such materials from entering into natural water.
34. The industry shall re-circulate the entire cooling water and shall also re-circulate/reuse to the maximum extent the treated effluent in processes
35. The industry shall make necessary and adequate arrangements to hold back the effluent in case of failure of re-circulation system/ effluent treatment plant.
36. The industry shall make proper disposal of the effluent so as to ensure that no stagnation occurs inside and outside the industrial premises during rainy season and no demand period.
37. Where excessive storm water drainage or run off, would damage facilities necessary for compliance with terms and conditions of this consent, the applicant shall immediately notify the consent issuing authority in writing of each such diversion or bye-pass.
38. The industry shall submit a detailed plan showing therein the distribution system for conveying waste-water for application on land for irrigation along with the crop pattern for the year.
39. The industry shall ensure that the effluent discharged by it is toxicity free.
40. The industry shall not irrigate the vegetable crops with the treated effluents which are used/ consumed as raw.
41. Drains causing oil & grease contamination shall will be segregated. Oil & grease trap shall be provided to recover oil & grease from the effluent.

42. The industry shall establish sufficient number of piezometer wells in consultation with the concerned Regional Office, of the Board to monitor the impact on the Ground Water Quantity due to the industrial operations, and the monitoring shall be submitted to the Environmental Engineer of the concerned Regional Office by the 5th of every month.
43. The industry shall ensure that its production capacity & quantity of trade effluent do not exceed the quantity mentioned in the consent and shall not carry out any expansion without the prior permission/NOC of the Board.

B. SPECIAL CONDITIONS

- 1) The project proponent will provide water meter over the borewells and keep record.
- 2) The project proponent will complete the work of 2nd module of STP of 195 KLD capacity immediately and inform to Board. The project proponent will provide separate water meter over the line leading to plantation, flushing and GMADA sewer and will maintain record. The project proponent will replace the faulty water meter.
- 3) The project proponent will complete the work of connection of treated water line from outlet of STP to plantation area, flushing, HVAC / DG Cooling and GMADA sewer immediately & inform Board. The project proponent will ensure that no fresh water is being supplied for plantation area & flushing activities.
- 4) The project proponent will complete the electrical work of ETP, connect the treated water line with gardening, install filter press with the ETP, provide flow meter with the ETP and maintain record of operation of ETP.
- 5) The project proponent will install mechanical composters of adequate size within the site for treatment of bio-degradable waste and keep record.
- 6) The project proponent will ensure that no single use plastic items banned by MoEFCC notification no. G.S.R. 571(E) dated 12.08.2021 are being used within the project premises.
- 7) The project proponent will complete the work of development of green area @ 350 sqm and inform Board.
- 8) The project proponent may also develop the vermicomposting/composting to manage the biodegradable solid waste. PP shall not throw, burn or bury any solid wastes in open, outside premises or in drain / water bodies.
- 9) The project proponent shall promote use of alternatives of single use plastics (SUP) and awareness to discourage use of plastic, through their Corporate Environment Responsibility (CER) activities.
- 10) The project proponent shall ensure that there are no usages of single use plastic- thermocol disposable items such as water bottles / water pouches/water cups, plates, forks, spoons, straw etc. and single use decorating material made of plastic-thermocol or any other non-biodegradable material in the premises.
- 11) The project proponent shall properly handle and manage the solid wastages as per the provisions of the Municipal Solid Waste Rules 2016 and ensure that the solid waste is segregated & disposed of in an environmentally sound manner.

To
 Regd. ✓ M/s AB Alcobev Private Limited,
 Site no.252, Sector-67, Mohali-160062

Memo No. 549-49...../ CP-67, Sec-67, Mohali / SAP RID-11611
 Dated10...../05...../ **2022**

Sub: NOC to M/s AB Alcobev Private Limited for electrical scheme of 4.173 Acres Commercial project 'CP-67' at Sector-67, SAS Nagar for 5996.23 KW/ 6662.477 KVA (SAP RID-11611).

- Ref: I. Your online request dated 07.08.2021 for issue of NOC against SAP RID-11611.
 II. The Allotment letter for 4.173 Acres at Sector-67, SAS Nagar issued by Estate Officer, GMADA, SAS Nagar vide memo no. GMADA (EO)/2016/16349 dated 11.04.2016.

With reference to the subject and online application received vide SAP RID-11611, the NOC for release of electricity connections to individual consumers by PSPCL in subject cited project being developed as per the layout plan approved by Estate Officer, GMADA, SAS Nagar and Electrical Layout Plan approved by the field office (copy enclosed) is hereby given subject to the following terms & conditions.

1. As per Load Sheet, the total estimated load of the project is 5996.23 KW/ **6662.477 KVA** which will be fed through 1 no. 2500 KVA and 3 no. 2000 KVA distribution transformers (total 8500 KVA). The brief load details of the project are as under:

a) Commercial Load	= 5769.73 KW/ 6410.81 KVA
b) Common Services	= 226.5 KW/ 251.66 KVA

(i.e. Lifts, Water Works, STP,
 Fire Fighting Street Light, (common area)

2. **As per online application filed by you, requiring Single Point Supply under Regulation 6.6.2 of PSERC (Electricity Supply Code and Related Matters) Regulations-2014 (Supply Code-2014) as amended from time to time, the same shall be allowed by appointing you as Distribution Franchisee for making electricity available within the area under the project.**

In this regard, this office has issued instructions vide memo no. 2213-38 dated 21.09.2019 that the developer has to sign only new franchisee agreement 2021 after its finalization by PSPCL. However as per instructions issued vide memo no. 2381 dated 28.10.2021, during the transient period (i.e till finalization of franchisee agreement 2021) if you intends to take electricity connectivity for your project, you can sign draft franchisee agreement 2021 (under approval) with validity only till finalization of new franchisee agreement 2021 subjected to condition that you shall also furnish undertaking for signing and abiding by conditions of new franchisee agreement 2021 after its finalization by PSPCL.

3. Electrical connectivity to the said project for 6662.477 KVA load will be given by tapping existing line of 66 KV IISER Grid. This Grid is emanating from 220 KV Substation Sector-80 Mohali. Total cost to be deposited by you for electrical connectivity to the said project as per latest Standard Cost data (CC-23/2019) is Rs. 8,35,01,943/-, (Rs. Eight Crore, Thirty Five Lakh One Thousand Nine Hundred and Forty Three only), whose breakup is as follows:-

Sr.No	Item	Amount (in Rs.)
i)	Tentative cost of 2150 meter new 66 KV line (with 240sq. mm XLPE cable between 66 KV S/s IISER upto 66KV S/s at project site	7,12,00,000/-
ii)	Proportionate cost of existing 66KV with 240sq. mm XLPE cable from 220 KV S/s Sector-80 Mohali upto 66KV S/s IISER (6662.48 KVA x Rs.631/KM/KVA x 2.805 KM)	1,17,92,290/-
iii)	Proportionate cost of 1 no. 66KV Bay (O/G bay at 220KV S/s Banur) (6662.48 KVA x Rs.76.496/KVA)	5,09,653/-
Total amount		8,35,01,943/-

The above cost of estimate is purely on tentative basis which shall be subject to actual sanction of estimate at the time of execution of work as per Supply Code-2014 and policy/ regulations of PSPCL at the time of release of load. Statutory taxes, if applicable, shall be chargeable extra on the estimated amount of Connectivity Charges.

Note: Proposed new 66 KV line is crossing 200 feet wide Airport Road. PSPCL shall be arranging the necessary permission from the competent authority and all the charges/ fees for the permission from Competent Authority (for road crossing) shall be payable by you.

4. The Allotment letter of Hotel (100 Rooms Minimum) and Commercial Site for 4.173 Acres at Sector-67, SAS Nagar has been issued by Estate Officer, GMADA, SAS Nagar vide memo no. GMADA (EO)/2016/16349 dated 11.04.2016.
5. Since NOC has been applied under single point supply Regulation 6.6.2, LD system shall be constructed and maintained by you. Therefore 15% of Supervision charges on labour cost of LD system shall not be recovered from you
6. The estimated expenditure for layout of electrical LD system of the project shall be Rs. 3,51,95,809/- (Rupees Three Crore Fifty One Lakh Ninety Five Thousand Eight Hundred and Nine only) and is subject to change as per rates prevailing at the time of execution of work. In case of request for energisation of incomplete LD system, the same shall be allowed provided you furnish a Bank Guarantee (BG valid for 3 years) from any bank registered & regulated by RBI equivalent to the estimated cost of balance works as per the cost of material and labour prevailing at the time of allowing connectivity for the partial load plus expected % age increase in the cost of material & labour in the next 3 years as may be approved by PSERC.

The amount of Bank Guarantee shall keep on reducing with the completion of remaining works of the LD system. After submission of Bank Guarantee to the satisfaction of PSPCL, the 20% BG accepted at the time of issue of NOC shall be returned to you and it shall be the responsibility of PSPCL to release connections to the residents/ occupiers of the colony/complex. After its completion and inspection by the Chief Electrical Inspector to Govt. of Punjab, PSPCL will take over the LD system which will be connected to its distribution system. PSPCL shall thereafter maintain the LD system at its own cost.

Note- At present as decided by PSERC, PSPCL shall accept a BG (valid for three years) equivalent to 105% of the estimated cost of balance works of LD system.

7. 20% bank guarantee vide BG No. 16391IGL0000522 dated 25.04.2022 amounting to Rs. 70,39,170/- (Rupees Seventy Lakh Thirty Nine Thousand One Hundred and Seventy only) valid for Five years (till 24.04.2027) from Union Bank of India has been submitted by you. As per detailed instruction issued vide memo no. 157 dated 20.03.2019, following are the 'Events of default' regarding 20% Bank Guarantee :-

- 3-
- a) 20% BG shall be returned back when you avails partial connectivity/ full connectivity against the NOC.
 - b) In case connectivity is not sought by you within the validity of NOC, a notice shall be issued to you one month before the expiry of BG for its extension for a further period of 3 years & applying for revised NOC for release of connections in the project. Copy of the notice will also be sent to the bank for encashing the BG in case of its non-extension.
 - c) In case 20% BG is not extended by you before its expiry, it shall be got encashed by PSPCL. Later whenever you apply for revised NOC, fresh/ separate 20% BG shall have to be submitted. The amount of 20% BG already encashed shall be adjusted towards the external connectivity charges payable by you against revised NOC.
8. Poles for laying HT/ LT lines in the proposed project shall be so erected that no pole comes in front of the entrance of any plot or causes any hindrance to the residents in easy & free entrance to the plot. As far as possible, the poles may be erected at the junction of two plots. In case any pole comes in front of the entrance/ main gate of the plot, the same shall be got shifted by you at your own cost.
9. It will be ensured that length of the LT line/ capacity of distribution transformers does not exceed the specified limits of PSPCL as per approved plan/guidelines of PSPCL and metering equipment may be installed as per PSPCL guidelines.
10. If at any given point of time, firm has to hand over all the established system to PSPCL, it will be taken over as per PSPCL norms/instructions prevalent at that time.
11. The expense of shifting of HT & LT lines inside the project shall be borne by you.
12. As per your undertaking dated 07.08.2021, no construction shall be allowed under the HT/ EHT lines and no construction corridor shall be provided below the HT/EHT lines and that appropriate clearance from existing lines/ buildings shall be maintained as per the CEA Regulations (amended to date). You shall be solely responsible for any violation of Rules and relevant act/rules in view of the undertaking submitted to PSPCL.
13. If at any stage, the Government/ Developer revises the layout plan of the project due to revision in layout, change in FAR norms or change in project area/ planning, you shall be liable to take the revised NOC alongwith payment of charges as per norms of PSPCL.
14. For erection of HT/ LT lines & Distribution Transformers, the instructions of PSEB Manual on Standard Instructions on Distribution System & Construction Practices must strictly be followed.
15. Due to non-development of the requisite electrical LD system or deposit of costs to PSPCL by you, if PSPCL is not able to give electric connection(s) to the prospective consumer(s) (owners/ residents of the plots), the responsibility of such inaction/ delay in release of connections shall solely rest on you.
16. The clearance from Chief Electrical Inspector, Punjab for electrical installations inside the project shall have to be obtained by you.
17. You shall be responsible for any fatal / non-fatal accident during the electrification work of the project inside the site.
18. The issue of NOC shall not mean any commitment on the part of PSPCL to release the connections, which shall be subject to rules, seniority and other policy/ regulations prevalent at the time of release of connections.
19. The NOC for release of electricity connections is being issued keeping in view the provision of electricity installations only and does not mean grant of clearances from other departments as per requirement under relevant rules/ laws prevalent in their case.
- 20. The validity of this NOC shall be five years from the date of issue and during validity period, connectivity charges should be deposited along with erection of complete LD system or connectivity charges should be deposited along with erection of partial LD system along with submission of 105% BG for the balance work of LD system. In case**

these conditions are not complied with, application for issue of revised NOC shall have to be submitted which shall be considered on merit based on the then prevalent loading conditions and other policy/regulations of PSPCL.

Dated...../...../ 2022

1. Endst. No...../ CP-67, Sec-67, Mohali / SAP RID-11611

Regd. Copy of the above is forwarded to the DY. CE/ DS CIRCLE, MOHALI for information and necessary action w.r.t. the case forwarded to this office vide memo no. 7470 dated 08.10.2021 and 1973 dated 21.03.2022 and 2831 dated 20.04.2022. The responsibility with regard to authenticity of documents including grid data, voltage drop and loading conditions of the feeder shall lie with his office. The approved electrical layout drawing is being enclosed for reference and record in his office. The validity of all the documents uploaded by the promoter may be checked before release of electric connection. The actual sanction of all estimates at the time of execution of work should be as per Clause 9.3.6 of Supply Code-2014 amended upto date.

- a) It must be ensured before release of connection that no construction is allowed under the HT/EHT lines and a no construction corridor is provided below the HT/EHT lines and that necessary horizontal and vertical clearances from HT/EHT lines as per IE Rules/ CEA guidelines be maintained by promoter.
- b) It must be ensured that in case of request for energisation of incomplete LD system is made by promoter; the same shall be allowed, provided a Bank Guarantee (BG valid for 3 years) from any bank registered & regulated by RBI equivalent to the estimated cost of balance works as per the cost of material and labour prevailing at the time of allowing connectivity for the partial load plus expected % age increase in the cost of material & labour in the next 3 years is submitted by promoter before release of connection.
- c) Detailed instructions regarding 20% BG has already issued by this office vide memo no. 157 dated 20.03.2019, 584-88 dated 07.08.2020 and 688 dated 01.09.2020, the same should be meticulously complied with by the concerned AE/AEE (DS).
- d) The instructions regarding temporary connection to the developer were issued vide memo no. 1392-1419 dated 09.04.2021, the same should be meticulously complied by the concerned field office.
- e) It has been decided to install HT, CT/PT meter for energy audit purpose and actual cost of the same may be got deposited from the developer.
- f) The instructions regarding release of water supply connections before the release of any other connection in the colony were issued vide memo no. 849-54 dated 4.12.2020, the same should be meticulously complied with by the concerned AE/AEE (DS).
- g) This office has issued instructions vide memo no. 2213-38 dated 21.09.2019 that the developer has to sign only new franchisee agreement 2021 after its finalization by PSPCL. However as per instructions issued vide memo no. 2381 dated 28.10.2021, during the transient period (i.e till finalization of franchisee agreement 2021) if developer intends to take electricity connectivity for its project, they can sign draft franchisee agreement 2021 (under approval) with validity only till finalization of new franchisee agreement 2021 subjected to condition that shall also furnish undertaking for signing and abiding by conditions of new franchisee agreement 2021 after its finalization by PSPCL. Field office should ensure meticulous compliance of these instructions.
- h) It must be ensured that total charges/ fees for the permission from Competent Authority for road crossing should be recovered from the developer. However the requisite permission from Competent Authority shall be the responsibility of PSPCL.

SE/ Regulation,
for Chief Engineer / Commercial,
PSPCL, Patiala.

Regd.

Copy of the above is forwarded to the Estate Officer, GMADA, PUDA Bhawan, Sector-62, SAS Nagar for information and necessary action w.r.t. the Allotment letter for 4.173 Acres commercial project at Sector-67, SAS Nagar issued by your office vide memo no. GMADA (EO)/2016/16349 dated 11.04.2016. The estimated expenditure for layout of electrical LD system of the project is approved for Rs. 3,51,95,809/- (Rupees Three Crore Fifty One Lakh Ninety Five Thousand Eight Hundred and Nine only) subject to change as per rates prevailing at the time of execution of work. This amount shall have to be secured from the promoter by you in case of default of promoter and the same shall have to be deposited to PSPCL for execution of work of LD system and release of connection to the consumers. The funds shall be placed at the disposal of PSPCL by your office within 15 days of the default on the part of promoter having been notified/ intimated to your office by SE/ Operation, so that the residents/ owners of the plots (the prospective consumers of PSPCL) are not denied electric connections for want of development of LD system. The above cost estimate is purely on tentative basis which shall be subject to actual sanction of estimate (recoverable amount) at the time of execution of work as per Clause 9.3.6 of Supply Code-2014. The estimated time period for complete development of the electrical LD system of the project is 60 months from the date of issue of NOC. The concerned section of your office may be instructed to watch progress of electrification of the project, so that the project is connected within the validity period of NOC. Any delay in development of LD system may be reported by the concerned field staff and promoter be followed to deposit the cost of connectivity and complete the LD system for release of individual connections.

M/s AB Alcobev Private Limited,
Site no.252, Sector-67, Mohali-160062

Memo No.....858-61...../ CP-67, Sec-67, SAS Nagar/SAP RID-11611
Dated19...../.....07...../2022

Sub: Regarding amendment in NOC no. 547-49 dated 10.05.2022 issued to M/s AB Alcobev Private Limited for electrical scheme of 4.173 Acres Commercial project 'CP-67' at Sector-67, SAS Nagar for 5996.23 KW/ 6662.477 KVA (SAP RID-11611).

1. NOC issued to you for 4.173 Acres Commercial project 'CP-67' at Sector-67, SAS Nagar vide memo no. 547-49 dated 10.05.2022. Further, As per clause-3 of NOC, 11 KV connectivity charges alongwith System Loading Charges were to be deposited by you.
2. After issue of NOC SE/DS Mohai vide memo no. 5777 dated 18.07.2022 stated that the consumer has given a representation dated 04.07.2022 in which it was informed that Xen (Electrical), GMADA vide letter dated 09.03.2022 has given the ROW through overhead for laying 66 KV lines from IISER Grid to the said project.
3. With reference to this matter and as per the proposal and comments given by SE/DS Mohali vide memo no. 5777 dated 18.07.2022 and ASE/TL, TL Division, PSPCL memo no. 2126 dated 16.07.2022 the estimate cost of this line is Rs.1,45,23,228/- (Rupees One Crore Forty Five Lakh Twenty Three Thousand Two Hundred and Twenty Eight Only) and the above cost shall be replaced by tentative cost of 2150 mtr new 66 KV line with 240 Sq.mm XLPE cable between 66 KV Substation IISER upto 66 KV Substation at project site amounting to Rs.7.12 Crore as per the original NOC.
4. This matter has been considered by competent authority and accordingly, clause no. 3 of the NOC issued vide memo no. 547-49 dated 10.05.2022 is being amended and same shall now be read as under:-

Clause No. 3

Electrical connectivity to the said project for 6662.477 KVA load will be given by tapping existing line of 66 KV IISER Grid. This Grid is emanating from 220 KV Substation Sector-80 Mohali. The land for 66 KV S/S at project site will be provided by you and erection and commissioning of 66KV S/S inside the project will be done by you. Total cost to be deposited by you for electrical connectivity to the said project as per latest Standard Cost data (CC-23/2019) is Rs. 2,68,25,171/-, (Rs. Two Crore Sixty Eight Lakh Twenty Five Thousand One Hundred and Seventy One only), whose breakup is as follows:-

Sr.No	Item	Amount (in Rs.)
i)	Tentative cost of Specialy designed Z Tower, S-2+6M(PN), S-30+6M (QN), S-60+6M (RN), 2D-60+6M Towers between 66 KV S/s IISER upto 66KV S/s at project site	1,45,23,228/-
ii)	Proportionate cost of existing 66KV with 240sq. mm XLPE cable from 220 KV S/s Sector-80 Mohali upto 66KV S/s IISER (6662.48 KVA x Rs.631/KM/KVA x 2.805 KM)	1,17,92,290/-

iii)	Proportionate cost of 1 no. 66KV Bay (O/G bay at 220KV S/s Banur) (6662.48 KVA x Rs.76.496/KVA)	5,09,653/-
iv)	Total amount	2,68,25,171/-

The above cost of estimate is purely on tentative basis which shall be subject to actual sanction of estimate at the time of execution of work as per Supply Code-2014 and policy/regulations of PSPCL at the time of release of load. Statutory taxes, if applicable, shall be chargeable extra on the estimated amount of Connectivity Charges.

Note:1 Proposed new 66 KV line is crossing 200 feet wide Airport Road. PSPCL shall be arranging the necessary permission from the competent authority and all the charges/ fees for the permission from Competent Authority (for road crossing) shall be payable by you.

Note:2 The vetting of latest route plan and Right of Way from GMADA and all other permissions/ NOCs from the concerned authorities for the erection of line shall be your responsibility.

All other terms and conditions of NOC issued vide memo no. 547-49 dated 10.05.2022 and ASE/TL, TL Division, PSPCL memo no. 2126 dated 16.07.2022 shall remain same.

This issues with the approval of Competent Authority.

Reference No : Dt.: 25/09/2024

Customer Name	Commercial Project Namely "CP.67"		
Address	located at Site No. 252, Setor 67, SAS Nagar, Punjab by M/s AB Alcobev Pvt. Ltd.		
Sampling Protocol	IS 9989, EL-MSP-7.3	Mode of Collection of Sample	Sample collected by Laboratory
Period of Sampling	14/10/2024 - 14/10/2024	Date of Receipt of Sample	15/10/2024
Sampling Location	Refer Below^	Period of Analysis	15/10/2024 - 16/10/2024
Standard/Specifications	EPA 1986 Schedule-III	Environmental Condition	--
Testing Location	On Site & Permanent Facility		

RESULTS

I. Chemical Testing

1. Atmospheric Pollution(Ambient Noise Levels)

Sr.No	Location ^	Unit	Result (Day)	Test Method
1	At Project Site	dB(A)	52.8	EL/SOP/AN/01

Ambient Noise Quality Standards as per Noise Pollution (Regulation and Control) Rules, 2000

Area Code	Category of Area/Zone	Limits in dB(A) Leq* Day Time	Limits in dB(A) Leq* Night Time
A	Industrial Area	75	70
B	Commercial Area	65	55
C	Residential Area	55	45
D	Silence Zone	50	40

Day time shall mean from 6.00 a.m. to 10.00 p.m., Night time shall mean from 10.00 p.m. to 6.00 a.m., Silence zone is an area comprising not less than 100 meters around hospitals, educational institutions, courts, religious places or any other area which is declared as such by the competent authority, Mixed average of the level of sound in decibels on scale 'A' which is relatable to human hearing

TEST REPORT

ULR No : TC1181824000009784F

Test Report No : NANL151024EM004

Type of Sample : Ambient Noise

Date of reporting : 19/10/2024

OTHER INFORMATION

Abbreviation : ULR: Unique Lab Report, BDL: Below Detection Level, NA: Not Applicable

Terms & Conditions :

1. The results relate only to the items tested.
2. Giving opinions does not imply endorsement of the tested product by laboratory. Under no circumstances, laboratory accepts any liability caused by use or misuse of Test Report.
3. The Test Report shall not be reproduced except in full or part or used as advertisement or evidence in court of law without written approval of the laboratory. Samples drawn under special circumstances like legal cases, the customer must declare the same at the time of submission.
4. Complaint log book is with Quality Cell. Contact No. (M) 91 8872 04 3135, Phone 91 172 4616 225 Email: quality@ecoparyavaran.org
5. The samples tested may be preserved for a period but not exceeding 7 days from date of reporting, unless otherwise specifically desired by the customer or regulatory authorities. However, depending upon the nature of samples and effect of preservation the test results of preserved samples may vary. Laboratory also does not assume any responsibility in the test results of samples kept on hold for want of clarification.
6. All disputes are subjected to jurisdiction of Mohali (Punjab) India and maximum liability of the laboratory does not exceed the testing and sampling charges.
7. In case where sample is provided by the customer, the reported results shall apply to the sample as received.

ANNEXURE-1

Ministry of Environment and Forests Notification

G.S.R. 371(E) dated 17th May, 2002 along with G.S.R. 520 (E) dated 1st July, 2003 and G.S.R 448 dated 12.07.2004 (The Environment (Protection) Amendment Rules, 2003)

94. NOISE LIMIT FOR GENERATOR SETS RUN WITH DIESEL

1. Noise limit for diesel generator sets (upto 1000 KVA) manufactured on or after the 1st January, 2005.

The maximum permissible sound pressure level for new diesel generator (DG) sets with rated capacity up to 1000 KVA, manufactured on or after the 1st January, 2005 shall be 75 dB(A) at 1 meter from the enclosure surface. The diesel generator sets should be provided with integral acoustic enclosure at the manufacturing stage itself.

2. Noise limits for diesel generator sets not covered by paragraph 1, shall be as follows:

i. Noise from DG set shall be controlled by providing an acoustic enclosure or by treating the room acoustically, at the users end.

The acoustic enclosure or acoustic treatment of the room shall be designed for minimum 25 dB (A) insertion loss or for meeting the ambient noise standards, whichever is on the higher side (if the actual ambient noise is on the higher side, it may not be possible to check the performance of the acoustic enclosure/acoustic treatment. Under such circumstances the performance may be checked for noise reduction up to actual ambient noise

B.N. Concast Pvt. Ltd.

Mfg Re-refined Lubricating oil / transformer oil / Industrial oil / Machine oil

AGREEMENT

Doc No. 622

This Agreement is made on 1st Day of September 2022 Between:-

1. M/s AB ALCOBEV PVT LTD
Plot No. 252, Sector 67, S.A.S Nagar (Mohali) PUNJAB
Email to : legal@homelandgroup.org

AND

2. M/s B.N. Concast Pvt. Ltd., Plot No. 18, HSIIDC Complex, Vill Alipur, Barwala,
Dist. Panchkula, Haryana. Pin 134112. Email- bnconcast@gmail.com,
MB: 9803450822

Resolved That: -

M/s B.N. Concast Pvt Ltd is authorized reprocessors of Used oil ,i.e., to collect, treat, store and dispose off Hazardous waste (category 5.1) as per the guidelines under the Environment (Protection act 1986) & the notifications issued there under, Hazardous waste (Management Handling & Transboundary Movement) rules, 2016 as amended (the rule).

Whereas B N Concast pvt ltd will lift the hazardous Waste, being generated at the unit of First Party. The present agreement shall remain in force upto 31.08.2027 from the date of signing of this agreement.

THIS DEED THEREFORE WITNESSES AS FOLLOWS:

1. Period of Agreement

- 1.1 The Present Agreement shall remain in force for the active Term as specified on Page 1 of the Agreement.

2. Termination of Agreement

- 2.1 Both the parties hereto agree that the present Agreement shall automatically come to an end in any of the following eventualities:
- i) On expiry of Authorization Period granted to the client and the same having not been renewed by the Client.

3. Registration

- 3.1 The Client shall pay non refundable Charges of Rs. 7,000/- (Rupees Seven Thousand Only), towards Registration. (GST EXTRA AS APPLICABLE) Registration under this agreement is not transferrable in any manner whatsoever.

4. Obligation of the Client

- 4.1 While entering into the present Agreement with M/s B.N.Concast Pvt. Ltd., the Client shall submit the categories of Hazardous Waste along with the quantity and its desire to dispose off the same. The said categories of Hazardous Waste shall be as per the parameters specified in the Schedules of hazardous Waste (management, Handling & Transboundary Movement) Rules 2016, as amended from time to time.

5. Transportation and Payment Terms

- 5.1 Quantity Above 210 litres will be paid by the second party to the first party as per market at rates, no payment will be paid if quantity is less than 210 ltr
- 5.2 The Free loading time is 1 hour and charges beyond the free loading time are Rs 200/- per hour.
- 5.3 Transportation charges are not applicable if the unit is within 20 kms of range, beyond that Rs.20/- per Km will be charged.

ENVIRONMENT POLICY OF THE COMPANY Aiming to be green TO BE HERE.

M/s A.B. ALCOBEV (P) Ltd. is committed to ensure an eco-friendly environment by establishing, maintaining and continually improving an Environmental Management System (EMS) with emphasis on below mentioned:

- We involve our customers, suppliers, vendors and contractors in environmental sustainability endeavors by sharing our expectations to collaboratively achieve our environmental objectives and adopting the '3-R' (Reduce, Reuse and Recycle) concept.
- We are strived to comply with all applicable environmental and related legal and other requirements.
- To implement all these measures, we are devised an Environment Management Plan (EMP) which consist of all mitigation measures for each activity to be undertaken to minimizing environmental impacts if any.
- We have communicated our environmental policy to all the employees, customers, business associates and other stakeholders and ensure that the reporting of the environmental related compliance is done through appropriate communication channels.
- We are reviewing the environmental policy and allied management systems periodically to ensure continuing applicability and relevance to our operations.
- Preserve and enhance biodiversity in our unit and ardently promote 'green procurement for our all upcoming projects'.

Memo No. EO/2016/

16349

Date:

11.4.16

Sub:

Allotment of Hotel (100 Rooms minimum) and Commercial Site, measuring 4.173 acres in Sector 67, SAS Nagar.

Consequent to your highest bid in the auction held on 23.09.2015, the following site is allotted to you on freehold basis.

Area	4.173 acres (20198.789 Sq. Yards) revised.
Auction Price	Rs.1,05,00,80,839/- (Rupees One hundred and five crores eighty thousand eight hundred and thirty nine only) as per revised area.
Land use	Hotel (100 Rooms minimum) and Commercial Site
Floor Area Ratio (FAR)	Basic F.A.R.: 1:2. Maximum F.A.R. 1:3. However additional 1 F.A.R. is purchasable.

The allotment would be further subject to following terms and conditions:

1. FINANCIAL CONDITIONS:

- (i) The payment amounting to Rs.23,22,88,990/-already made by you (including Rs. 2,11,04,532/-towards "The Punjab State Cancer and Drug Addiction Treatment Infrastructure Fund") has been adjusted towards the initial deposit as 20% of the auction price of the site and balance in 1st moratorium period installment.
- (ii) The balance 80% amount i.e. Rs. 84,00,64,672/- (Rupees Eighty four crores sixty four thousands six hundred and seventy two only) can be paid either in lumpsum with 10% rebate on the balance 80% amount provided the payment is made within 60 days of the date of issue of this allotment letter or in 10 yearly equated instalments with interest @12% p.a as per schedule of payment mentioned below. A moratorium period of two years for payment of principal amount shall be allowed before payment of first installment i.e principal plus interest. However, interest on the principal amount shall be payable half yearly during the moratorium period. In case interest is not paid within the given time, penal interest @ 18% p.a. will be levied for the period of delay upto 3 months beyond which delay shall not be condoned under any circumstances and the site shall be resumed. First installment shall commence immediately after the completion of moratorium period.

Amount Payable during Moratorium Period:-

Due date	Principal Amount (INR)	Interest (INR)	Total Amount Due (INR)
23-03-2016	0	50403880	49235590
23-09-2016	0	50403880	50403880
23-03-2017	0	50403880	50403880
Total	0	151211640	150043350

Schedule of Payment:-

Installment	Due date	Principal Amount (INR)	Interest (INR)	Total Amount Due (INR)
1	23-09-2017	84006467	50403880	134410347
2	23-09-2018	84006467	90726985	174733452
3	23-09-2019	84006467	80646209	164652676
4	23-09-2020	84006467	70565432	154571899
5	23-09-2021	84006467	60484656	144491123
6	23-09-2022	84006467	50403880	134410347

9	23-09-2025	84006468	20161552	104168020
10	23-09-2026	84006468	10080776	94087244
Total		8440064672	504038802	1344103474

- (iii) In case any installment or part thereof is not paid by the due date, then without prejudice to any action under Section 45 of the Punjab Regional and Town Planning and Development Act, 1995, penal interest @ 18% per annum will be levied for the period of delay upto 18 months beyond which delay shall not be condoned under any circumstances and the site shall be resumed.
- (iv) The exact size of the Site and its dimensions are subject to variation as per actual measurement at the time of delivery of possession of the site. In case, the actual area exceeds the area offered, the allottee shall be required to deposit the additional price for the excess area proportionately as per price settled. In case of reduction in area, the allotment price will be proportionately reduced.
- (v) All payments shall be made by a Demand Draft drawn in favour of Greater Mohali Development Authority payable at SAS Nagar. Payments by cheque shall not be accepted. Details of site number, Sector, and the name of allottee should be indicated both in the forwarding letter and on the back of Demand Draft for avoiding any misuse.
- (vi) All applicable charges promulgated by Government, Statutory Authority or local government other than those for Change of Land Use will be payable over and above the consideration amount, as and when due.
- (vii) No interest will be paid for any amount, whatsoever, deposited with the Greater Mohali Area Development Authority in advance of the due date.

- (viii) No separate notice(s) for payment for installment(s) shall be sent.
- (ix) On payment of the entire consideration money together with interest due to the Greater Mohali Area Development Authority on account of sale of the site, the allottee shall have to execute a Deed of Conveyance in the prescribed form and in such manner as may be directed by Estate Office within three months of the payment of entire consideration money.

2. OWNERSHIP & POSSESSION:-

- (i) The land shall continue to vest in the name of Greater Mohali Area Development Authority until the entire consideration money together with interest and any other dues, is paid in full to the Authority.
- (ii) Possession of the site will be given within 90 (ninety) days from the date of issue of this letter. In case the allottee fails to take possession of the site within stipulated period, it shall be deemed to have been handed over on the due date.

3. BUILDING BYE-LAWS:-

- (i) PUDA Building rules 2013 as amended from time to time or any other rules as notified by the Government at the time of construction of building on site shall be applicable.
- (ii) Basic FAR 1:2. Maximum permissible FAR is 1:3. However additional 1.0 FAR is purchasable on payment @ 35% as per following formula

Illustration:

$$\frac{\text{Prevailing rate or Allotment rate}}{\text{whichever is higher}} \times \text{Excess F.A.R.} \times 35\%$$

Basic F.A.R. (1:2)

- (iii) Sub-division of the site will not be allowed.
- (iv) Height: no restriction but NOC from Airport Authority of India is to be taken by the allottee.
- (v) It will be responsibility of the allottee to get the NO Objection Certificate from Fire Fighting Department under the provisions of various Acts as applicable.
- (vi) The site shall be regulated by PUDA Building Bye laws. The allottee shall be allowed to undertake construction after getting the Building Plans approved from GMADA. For permissible Ground Coverage, Set Backs, Height of Buildings, Parking norms etc. PUDA Building Bye laws / Prevailing policies may be referred to.
- (vii) GMADA shall provide separate connections for fresh water for drinking and potable uses and tertiary treated waste water for flushing and gardening purpose. The allottee shall ensure the installation of dual plumbing system along with separate storages for both types of water in

its building. It may be noted that occupation certificate shall be issued only after it is certified by the JE building.

- (viii) The allottee shall be entitled for the Sewer & Storm water connection in the main Sewer & Storm network developed by GMADA.

4. USAGE AND PERIOD OF CONSTRUCTION:-

- (i) Site shall be used only for the purpose, for which it is allotted, and not for any other purpose whatsoever, and no change of land use shall be permitted.
- (ii) The site is offered on "as is where is basis" and the authority will not be responsible for leveling the site or removing the structures, if any, thereon.
- (iii) The allottee will take completion certificate within 10 years from the date of allotment.
- (iv) Before occupying the building, the allottee will be required to obtain Occupation / Completion Certificate from the Estate Officer, GMADA S.A.S.Nagar. However, allottee may apply for partial Occupation Certificate for the Buildings completed by it in phases.

5. OTHER GENERAL CONDITIONS:-

- (i) This allotment shall be governed by Punjab Regional and Town Planning and Development Act, 1995, Rules and Regulations framed there under as amended from time to time.
- (ii) The allottee shall have no right to transfer by way of sale, gift, or otherwise, the site or any other rights, title or interest in the said site before execution of conveyance deed without permission of the Estate Officer, GMADA, SAS Nagar and on payment of the transfer fee as applicable. Mortgage of the site will also be permitted with the prior permission of officer authorized by the Authority.
- (iii) All General and local taxes, rates, fees and cesses, imposed or assessed on the said site / building by any authority under any law shall be paid by the allottee.
- (iv) The officers of the Authority, at reasonable time and in reasonable manner and after giving 24 (twenty four) hours notice in writing, may enter in any part of the site/ building erected thereon for the purpose of ascertaining that the allottee has duly performed and observed the conditions of allotment and provisions under prevalent rules, Acts and regulations as amended from time to time.
- (v) GMADA shall have the full right, power and authority at all times to do through its officers and / or representatives, all acts and things which may be necessary and expedient for the purpose of enforcing compliance with all or any of the terms, conditions and restrictions imposed and to recover from the allottee as first charge upon the said site, the cost of

doing all or any such acts and things and all costs incurred in connection therewith, or in any way relating therewith.

- (vi) In case of breach of any condition(s) of allotment or of regulations including Building Bye-laws or non-payment of any amount due together with the penalty, the site or building, as the case may be, shall be liable to be resumed and in that case 10% of the total price plus interest due till that date will be forfeited.
- (vii) Any change in the address must be immediately intimated to the Estate Office by registered post.
- (viii) Roof of the building and the open space available around the built up area shall not be permitted for storage.

6. DISPUTE RESOLUTION:-

In case of any dispute or differences arising out of the terms and conditions of auction or allotment letter, the same shall be referred to the Chief Administrator, GMADA. The decision of the Chief Administrator in this regard will be final and binding on all the parties.
